PART I - BUSINESS AND GENERAL INFORMATION

Item 1. Business

A. Business Development

Incorporated in 1989, **Prime Orion Philippines, Inc.** (POPI/Company/Issuer), originally registered as *Philippine Orion Properties, Inc*., was incorporated as an investment holding company. The exchange of shares of the Company with First Lepanto Corporation (FLC) paved the way for the entry of the Guoco Group of Hong Kong [through its affiliate, Guoco Assets (Philippines), Inc. (GAPI)] as principal shareholder of the Company. Consequently, in 1994, the Company was renamed *Guoco Holdings (Philippines), Inc*. (GHPI). (Guoco Group is a regional conglomerate with operations in Singapore, Malaysia, Indonesia, Hong Kong and the United Kingdom, engaged in the businesses of real estate, manufacturing and financial services).

To enable GHPI to better position itself in the Philippines and capitalize on the local conditions existing at that time, GAPI and GHPI mutually agreed to terminate their Management Contract on 2 October 2001. Consequently, on 4 January 2002, GHPI changed its name to *Prime Orion Philippines, Inc*..

POPI, at present, has interests in real estate and property development, manufacturing and retailing/distribution, non-life insurance and other allied services organized under the following intermediate holding companies:

(i) Orion Land Inc., organized in 1996, with authority to purchase, own, hold, lease and dispose of real properties;
(ii) Orion I Holdings Philippines, Inc., organized in 1993, with authority to engage in the manufacture, importing, selling and dealing in wholesale of various products, electronic equipment and materials/supplies used for the manufacture of said products; and
(iii) OE Holdings, Inc., organized in 1993, with authority to engage in investment holding activities.

B. Business of Issuer

(i) Principal Products and Services

The principal products and services of POPI's holding and operating companies as of 30 September 2015 are as follows:

Orion Land Inc. (OLI)

- Tutuban Properties, Inc. (TPI), a wholly-owned subsidiary, organized in 1990, holds the lease and development rights over a 22-hectare market district in downtown Divisoria, the country's oldest and biggest trading district. On the property sits the Tutuban Center, an integrated wholesale and retail complex recognized as the premier shopper's bargain district in the Philippines. On 22 December 2009, TPI renewed its Contract of Lease with the Philippine National Railways (PNR) for another 25 years (5 September 2014 to 2039). In November 2012, TPI completed the Orion Hotel, a 41-room hotel, located at the third floor of TPI's Prime Block Building.

  On 1 April 2015, TPI entered into a Memorandum of Understanding with the Department of Transportation and Communications (DOTC) and the PNR whereby the parties agreed to cooperate for the finalization and completion of the plans for DOTC's North South Railway Project (NSRP) within a period of six months.

- TPI Holdings Corporation (THC), organized in 2005 as a wholly-owned subsidiary of TPI, holds the titles to certain parcels of land in Calamba, Laguna. On 18 August 2015, THC entered into a Memorandum of Agreement for the sale of the said properties to a third party buyer.

- Orion Property Development, Inc. (OPDI), another wholly-owned subsidiary, organized in 1993, handles property acquisition and horizontal development. Its landholdings include: (ii) about 31 hectares raw land in Kay-Anlog, Laguna (including those with pending Contracts to Sell); (ii) about 17 residential lots in The Homelands Subdivision in Calamba, Laguna, with a total area of about 2,682 sqm. and ridge area, with an area of 21,148 sqm.; (iii) Trellis Pocket Centre, a 747-sqm. commercial project located along National Highway, Calamba; (iv) additional 7,418 sqm. property known as the MARFA area at the back of The Homelands, intended to be developed and marketed as the premier section of The Homelands Subdivision; (v) 639-sqm. property in J.P.

Rizal, Makati City, to be developed as a commercial/residential condominium; and (vi) 58,800 sqm. property in San Vicente, Palawan.

Effective 1 July 2013, OMI Land Title Services Division (OMI Titling) of Orion Maxis Inc. (OMI) was transferred to OPDI. OMI Titling offers land titling services (such as title transfer, reconstitution of lost title, land verification and survey, real property tax assessment and payment, etc.)

As of 18 August 2015, about 31.61 hectares of the Sto. Tomas, Batangas property (owned by OPDI and THC) (including the 18 hectares subject of a previous agreement with a third party) were sold to a buyer.

Orion I Holdings Philippines, Inc. (OIHPI)

- Lepanto Ceramics, Inc. (LCI), a wholly-owned subsidiary, is engaged in the manufacture of ceramic floor and wall tiles under the brand name Lepanto. However, LCI has ceased tile production in mid-November 2012. LCI is currently working on its business plan. In the interim period, LCI is leasing its warehouses.

OE Holdings, Inc. (OEHI)

- OMI, a wholly-owned subsidiary of OEHI, is engaged in the business of establishing, developing and providing management and logistical infrastructure service and market incentive systems solutions, and other allied businesses and services. Appointed as the sales and marketing arm of LCI in 2008, OMI handled the distribution of Lepanto tiles. Incorporated in 2000 (*as 22ban.com)*, OMI was intended to initially operate as an on-line shopping website that offers a wide variety of gifts and other items for all occasions. In September 2004, OMI amended its primary purpose to its present purpose.

  In 2014, OMI was appointed as exclusive distributor of San Marco Paints, a leading decorative paint brand from Italy that offers creative and reasonably-priced paint solutions for finishing walls and ceilings, as well as exterior and interior basic paints for all types of construction projects.

Other subsidiaries/affiliates of POPI include:

- *FLT Prime Insurance Corporation (FPIC)*

  FPIC, a 72.4%-owned subsidiary of POPI, was incorporated in 1977, and operates as a non-life insurance company. It offers wide range of insurance products/lines such as fire, marine cargo, motor car, bonds, accident & health, miscellaneous casualty, engineering and business care.

- *Orion Solutions, Inc. (OSI)*

  OSI, a 100%-owned subsidiary, is engaged in the business of providing business software solutions and management/information technology (IT) consultancy services to individuals and corporations. (Originally organized in 1994 as an investment holding company, the company amended its purpose in 2002 to providing management, technical and financial consultancy services. It again amended its purpose in 2005 to engage in business as a software solutions/IT consultancy services firm.) OSI is the IT subsidiary of the POPI Group and is an authorized Reseller in the Philippines of the Enterprise Retail Planning Software Solution, Epicor, which is focused on sales and distribution for wholesale and retail, finance and discrete manufacturing.

- *BIB Aurora Insurance Brokers, Inc. (BAIBI)*

  BAIBI, organized in 1960, a 20%-owned affiliate, is in the business of insurance brokering. Due to poor market conditions, BAIBI suspended its operations in 2002.

Based on the Company's Consolidated Statement of Income (Loss) for the past year, the contribution of the above subsidiaries (on a per type of business basis) to the Company's consolidated Net Loss are as follows:

Parent Company (holding company)	98.7%
Real estate and property development	-10.3%
Financial Services	-0.3%
Manufacturing	8.3%
Others	3.6%

Total	100%

(ii) Percentage of Sales Contributed by Foreign Sales

The target market for products of the Company and its subsidiaries is the domestic market.

(iii) Distribution Methods

Selling of real estate by OPDI is made either through: (i) direct selling to individual or corporate buyers, or (ii) brokers. LCI's remaining inventory of Lepanto tiles are distributed and sold through the factory outlets at the LCI plant and Tutuban Center. Insurance products of FPIC are sold through direct selling or marketing by FPIC's individual/ corporate agents, branches, brokers and partners.

OMI Titling promotes its land titling services by joining trade fairs, direct advertising through flyers/brochures and service agreements with banks and land developers.

OMI promotes and sells San Marco Paints through direct selling to, and/or tie-ups with, architects, contractors and developers.

(iv) New Products or Services

FPIC continues to develop new insurance products for its retail market/clients.

(v) Competition

The Company competes with other investment holding companies in the Philippines in terms of investment prospects.

The Company's core businesses continue to compete in their respective industries. However, competition is kept basically on a domestic level. The Company's core businesses are as follows:

1. LCI competes in the ceramic tile manufacturing market. With the suspension of tile production in 2012, LCI sells only its remaining inventories. With the shift of LCI into leasing of its warehouses, LCI faces competition from other lessors of warehouses.

2. TPI operates the Tutuban Center in Manila, known as the premier bargain center in the country. Its competitors include other mall operators/lessors in the Divisoria area and within Metro Manila. TPI's Night Market and Food Street operations continue to draw customer traffic. TPI capitalizes on aggressive tri-media advertising and promotional campaigns to enhance customer awareness about Tutuban Center. On 4 September 2012, Cluster Building 1 and part of Cluster Building 2 were destroyed by fire. As CB 1 was no longer structurally sound, CB 1 was demolished. The demolition was completed on 22 January 2015.

   In November 2012, TPI completed its 41-room Orion Hotel located at the third floor of Prime Block Building. The Orion Hotel, a businessman hotel, caters to traders and shoppers of Tutuban Center. On 30 January 2015, the Orion Café, located near Orion Hotel at the third floor of Prime Block Building, was opened to complement the operations of Orion Hotel and cater to the hotel's guests and mall customers.

3. FPIC competes with other non-life insurance companies. Aside from its head office in Makati, FPIC maintains branches in Metro Manila, specifically, in Caloocan and Alabang, and key cities in the provinces of Cebu, Bacolod, Baguio and Davao, to expand its customer base and improve its market share. To remain competitive, FPIC continues to develop diverse and customized products which cater to the unique needs of its target market- the retail market, and to improve its existing products and services to its customers. There was also increased focus on lines with high premium retention such as motor car, personal accident and residential accounts.

4. OMI competes with distributors of other paint distributors and importers.

5. OPDI faces competition with other land developers; while OMI Titling competes with other land title management service providers.

(vi) Purchases of Raw Materials and Supplies

The Company's raw materials and supplies are purchased on a competitive basis from many different sources and are readily available.

(vii) Customers

POPI has a broad market base for its numerous product lines and is not dependent on a single customer or group of customers.

For its real estate and property development operations, POPI's potential customers include middle to high-income home buyers as well as real estate investors and developers.

LCI's ceramic tile products cater to the construction industry (including the renovation market) and its variety of products appeal to medium-end and low-end consumers. However, LCI has stopped the production of Lepanto tiles in November 2012.

For its financial services, FPIC has non-life insurance products which cater to a variety of customers, individuals and corporations.

The target market of OMI's San Marco paints includes architects, developers and contractors as well as institutional end users of paints.

(viii) Transactions with and/or Dependence on Related Parties

The Company has limited transactions and/or dependence on its shareholders and/or related parties in view of existing laws on disclosure and/or requirement for prior approval of appropriate government agencies.

(ix) Franchise

The Company's products are not covered by any franchise.

(x) Government Approvals for Principal Services

The following subsidiary/affiliate of the Company have been granted the necessary government approvals for their operations:

On 29 August 1980, BAIBI, a 20%-owned affiliate, was granted a license by the Insurance Commission (IC) to operate as an insurance broker. BAIBI's broking license has not been renewed as it has not resumed operations.

On 9 March 1977, FPIC, a 72.4%-owned subsidiary, was also granted a license by the IC to operate as a non-life insurance company, which license is renewed annually. The IC has extended the license of FPIC to until 31 December 2015.

(xi) Effect of Existing or Probable Governmental Regulations

Governmental regulations expected to materially affect the operations or business of POPI and certain of its subsidiaries are as follows:

a) On FPIC

Under Republic Act No. 10607 (An Act Strengthening the Insurance and Further Amending Presidential Decree No. 612, otherwise known as "Insurance Code") which took effect on 20 September 2013, existing domestic non-life insurance companies are required to have a net worth of P250 million by 30 June 2013., which will be increased every three years as follows: P550 million by end of 2016, P900 million by end of 2019 and P1.3 billion by end of 2022. The increase in net worth will coincide with the issuance of the Certificate of Authority or license of the insurance company which shall be renewable every three (3) years. At present, FPIC has complied with the P250 million paid-up capital requirement through the issuance of common and preferred shares of stock. FPIC will have to increase its net worth to P550 million by end of 2016.

Based on the IC's Report on FPIC's Annual Statement as of 31 December 2014, FPIC has deficiency in its Networth and Risk Based Capital ratio due to the non-conversion of its P72 million Deposit on Future Subscriptions account into equity. FPIC has already submitted its reply/explanation to the IC on 11 September 2015.

The IC sent a letter dated 6 October 2015 to FPIC (copy of which was received on 19 October 2015) asking the FPIC to explain within ten (10) days why it should not be subject to a Cease and Desist Order for not having filed its application for increase in capital stock. FPIC submitted its reply explanation to the IC on 28 October 2015.

b) On TPI

Government approval on the proposed increase in the prices of electricity and water will have a material adverse effect on the operations of TPI as it will directly increase utilities and overhead expenses (including Common Usage Service Area expenses).

(xii) Research and Development Activities

There are no research and development activities undertaken by the Company or its other subsidiaries at present.

(xiii) Costs and Effects of Compliance with Environmental Laws

Operations may be affected in the coming years with the implementation of R.A. 8747 and other environmental laws. Compliance with such environmental laws may entail additional investments and/or upgrades in facilities of TPI.

(xiv) Employees

As of 30 June 2015, the employees of POPI are as follows:

Executives	-	7	
Managers	-	6	
Supervisors*	-	16	*performs various clerical and administrative functions
Rank & File	-	13	

Total		42	

The said employees have been seconded by POPI to its subsidiaries. Depending on its requirements and that of its subsidiaries, POPI may hire additional employees for the ensuing fiscal year.

The Company has no workers' unions and is not bound under any Collective Bargaining Agreement (CBA); neither are any of its employees involved in any strike or threatening to stage a strike against the Company.

However, the Company's subsidiaries namely, FPIC and LCI, have workers' unions. LCI's CBA was signed last 21 October 2009; re-negotiation of the economic terms of the CBA began in October 2012 but was put on hold with the approval of LCI's Rehabilitation Plan. On 28 August 2014, the LCI Rehabilitation Plan was declared as successful and terminated. At present, almost all rank and file workers have left LCI.

FPIC's CBA has been finalized and signed on 9 October 2015. The new CBA shall be effective for five years commencing on 1 April 2015.

Item 2. Properties

The operations of the Company and most of its subsidiaries are conducted at the 20/F LKG Tower, 6801 Ayala Avenue, Makati City. The Company and its subsidiaries (TPI, OSI and OMI) lease an office (with a total area of 557.04 sqm.) at the rate of P785.00 per sqm. (subject to annual escalation of 7.5%); the lease was renewed for another three (3) years or until 14 April 2016, renewable under such terms acceptable to the parties.

LCI's office and plant sit on a 14.28-hectare property in Calamba, Laguna. TPI holds office at the 2nd Floor of Centermall Building of Tutuban Center at C.M. Recto Ave., Manila. FPIC's Head Office leases the 16th floor of Pearlbank Centre located at 146 Valero St., Salcedo Village, Makati City, while its branches lease office spaces in Alabang, Davao City, Bacolod, Baguio, Caloocan and Cebu.

Other properties of the Company and its subsidiaries include: (i) a 232.98 sqm. condominium unit at Eurovilla III at Valero St., Makati City, which is presently used as the residence of one of the Company's officers; (ii) Tutuban Center (comprised of Prime Block Mall, Cluster Building 2, Centermall I and II, Robinsons' Supermarket and Department Store building, Parking Tower and Tutuban Center

Shopping Plaza) with gross leasable area of about 60,000 square meters. The Tutuban Center sits on about 8.5 hectares (has.) (out of about 20 has. of real property owned by the PNR and covered by the lease of TPI), and (iii) 1.07 has. property in Mandaue City in Cebu City. In September 2015, the Company sold the Mandaue property.

The lease of TPI with the PNR was renewed last 22 December 2009 for another 25 years (5 September 2014 to 4 September 2039). The Renewal of Contract of Lease (starting 2014) provides for an expanded leased area (land use), which would include: (a) Phase I- existing 8.5 has.; (b) Phase IIA- approximately 5.8 has. (for land use); and (c) Phase IIB- approximately 5.8 has. (air rights).

However, on 4 September 2012, fire gutted the then newly-renovated Cluster Building (CB) 1 and part of CB 2. On 5 October 2012, TPI secured a property recovery and clearing permit for CB 1 and CB 2.

On 5 September 2013, the Department of Public Works and Highways (DPWH) issued a Decision dated 23 August 2013 for the demolition of CB 1 as the damaged building poses danger to the public. However, the DPWH issued a Cease and Desist Order (CDO) dated 19 September 2014 directing TPI to desist from demolishing CB 1 pending resolution of the Motions for Reconsideration filed by certain tenants of CB 1, and additional test/s to be conducted by DPWH.

On 21 February 2014, the DPWH issued its Order Lifting the CDO and directed the Office of the Building Official of Manila (OBO) to act with dispatch to continue to implement the Demolition Order dated 5 September 2013. Certain CB 1 tenants filed Notice of Appeal and Motion to Stay Execution dated 26 February 2014 with the Office of the President (OP). The OBO then issued a letter dated 21 March 2014 ordering TPI to temporarily stop and/or suspend the on-going demolition.

The OP issued a Decision dated 14 July 2014 which dismissed the appeal of the tenants and affirmed the Decision dated 23 August 2013 and Order dated 19 February 2014 (Lifting the CDO Order dated 19 September 2013) of the DPWH directing the demolition of CB 1. The demolition of CB 1 was completed on 22 January 2015.

CB 2 was refurbished and re-energized and made available for lease. TPI's Centermall, Prime Block, Bonifacio Plaza, Robinson's Supermarket and Department Store, Food Street and Night Market continue their normal business operations. In November 2012, TPI completed its a 41-room businessman hotel, the *Orion Hotel,* located at the third floor of Prime Block Building. In January 2015, TPI opened the Orion Café located near the Orion Hotel at the Prime Block Building.

At present, PNR has turned over to TPI the following additional areas: (1) about 2.4 hectares of Phase IIA (land use), and (2) about 5.7 hectares of Phase IIB (air rights).

OPDI, which handles property acquisition and horizontal development, has the following properties/projects: (a) about 33-has. property in Sto. Tomas, Batangas (including the 19.25 hectare property registered in the name of its affiliate, THC); (b) about 31 hectares raw land in Kay-Anlog, Laguna (including those with pending Contracts to Sell); (c) about 17 residential lots in The Homelands Subdivision in Calamba, Laguna, with a total area of about 2,682 sqm. and ridge area, with an area of 21,148 sqm.; (d) Trellis Pocket Centre, a 747-sqm. commercial project located along National Highway, Calamba; (e) additional 7,418 sqm. property known as the MARFA area at the back of The Homelands, intended to be developed and marketed as the premier section of The Homelands Subdivision; (f) a 49.85 sqm. condominium unit at Makati Prime Tower (subject to notice of *lis pendens* registered by the property owner, Prime Tower Property Group, Inc., in connection with its case against its contractor, Titan-Ikeda Construction and Development Corporation) (g) 639-sqm. property in J.P. Rizal, Makati City, to be developed as a commercial/residential condominium; and (h) a 58,800 sqm. property in San Vicente, Palawan.

In August 2015, OPDI and THC sold the abovementioned property in Sto. Tomas, Batangas (including the portion subject of previous agreement with a third party). At present, THC's remaining property in Sto. Tomas, Batangas is a 1,095 sqm. property.

Item 3. Legal Proceedings

a. "*Lavine Loungewear vs. First Lepanto-Taisho Insurance Corp. (now FPIC), et. al.*"
Civil Case No. 68287
G.R. No. 197219 / CA GR CV No. 90499

A complaint for sum of money (representing insurance proceeds) with issuance of Temporary Restraining Order (TRO) and Injunction was filed on 24 January 2001 with the Pasig Regional Trial Court

(RTC)-Branch 71, against the Company's subsidiary, FPIC, by its insured, Lavine Loungewear Mfg. Inc. (Lavine). Prior to the filing of the suit, there was an intra-corporate dispute between two groups of stockholders of Lavine, each group claiming to be the owner of Lavine and therefore entitled to receive the insurance proceeds. Since FPIC could not determine which group of Lavine stockholders to pay, FPIC only made partial payment on the claim.

On 2 April 2001, the RTC rendered a Decision finding FPIC liable to pay Lavine the amount of P18,250,000 with 29% interest per annum from October 1998 until full payment. A Special Order for Execution Pending Appeal was also issued by the Court. As a result, certain assets of FPIC were garnished/attached. FPIC then filed a Petition with prayers for TRO and Injunction with the Court of Appeals (CA)-10th Division, which reliefs were granted.

On 29 May 2003, the CA-10th Division, in its Consolidated Decision, ruled as follows: (1) setting aside the RTC Decision dated 2 April 2001; (2) declaring null and void the Special Order dated 17 May 2002 and the Writ of Execution dated 20 May 2002; (3) remanding the case to the lower court for pre-trial conference on the Second Amended Answer-in-Intervention; and (4) payment of proceeds to Lavine (if adjudged entitled to said proceeds) be withheld until a decision on the rightful members of the Board of Directors of Lavine is issued by the intra-corporate court. The Intervenors (a party to the intra-corporate dispute) filed a Motion for Reconsideration (MR) with the CA-10th Division, to which FPIC filed its Opposition dated 15 July 2003 together with a Motion for Immediate Lifting of Garnishment.

On 20 April 2004, the CA resolved to lift the order of levy and notices of garnishment on the real and personal properties and bank deposits of FPIC which were made pursuant to the Special Order dated 17 May 2002 and Writ of Execution dated 20 May 2003 which were declared null and void by the CA.

A Petition for Review (PR) was filed by Intervenors with the Supreme Court (SC) to set aside the CA Decision of 29 May 2003. The SC, in its Decision dated 25 August 2005, affirmed the CA Decision dated 29 May 2003. Said SC Decision became final and executory.

Separately, FPIC filed an appeal with the CA of the RTC Decision dated 2 April 2001. The records of the case have been forwarded to the CA on 28 January 2008. On 12 September 2008, FPIC received a Notice from the CA directing FPIC to file its appellant's brief within 45 days from receipt of the notice. FPIC filed its Appellant's Brief with the CA on 6 November 2008. Intervenor-appellees Harish Ramnani, et.al filed an Amended Motion to Dismiss (MTD) Appeal of Defendant Equitable PCI-Bank dated 14 November 2008. Intervenor-Appellees filed its Consolidated Brief dated 8 January 2009 to which FPIC filed its Appellant's Reply Brief dated 11 February 2009.

Meanwhile, on 6 January 2009, Villaraza Cruz Marcelo & Angangco (VCMA) filed its Entry of Appearance as counsel for appellant Banco de Oro Unibank, Inc. (BDO) (formerly Equitable PCI Bank) and filed an Opposition to the Amended MTD filed by Intervenor-appellees.

The CA, in its Resolution dated 8 May 2009, resolved as follows: (i) the MTD filed by Intervenor-appellees was denied; (ii) entry of appearance of counsel for BDO was noted; (iii) Appellee's Brief filed by Lavine on 10 February 2009 (which was one day late) was admitted in the interest of justice; (iv) Reply Brief of defendant appellants Rizal Surety and Insurance Co., Tabacalera Insurance Co. and FPIC (which was filed late) were admitted; (v) BDO given an inextendible period of 45 days from notice within which to file appellant's brief; and (vi) plaintiff-appellee's Consolidated Brief was admitted without prejudice to filing of an appellee's brief in response to appellant BDO.

BDO filed its Appellant's Brief to which intervenor-appellees filed their Appellee's Brief. BDO in turn filed a Reply Brief.

The CA issued a Decision dated 30 September 2010 which affirmed the RTC Decision dated 2 April 2001 in all respects except that it exempted BDO from paying 10% of the actual damages due and demandable as and by way of attorney's fees. Briefly, the Decision ruled relative to FPIC that:

(a) Intervention (by intervenors) was done and allowed so that the real representatives of party-plaintiff could sue on behalf of the latter;
(b) FPIC is liable for P18,250,000.00 because the insurance proceeds totaled P169,300,000.00 with interest per lead adjuster's valuation;
(c) FPIC must pay interest as it did not file an interpleader and consignation suit for this purpose;
(d) FPIC liable to pay 29% interest (i.e., twice the interest ceiling of 14.5%) as provided under Section 243 of the Insurance Code of 1978; and
(e) FPIC is liable for attorney's fees as it compelled plaintiff-appellee, through intervenors, to file the instant suit to collect money due from it.

On 5 November 2010, FPIC filed an MR of the CA Decision dated 30 September 2010. The CA issued a Resolution dated 9 June 2011 which affirmed the 30 September 2010 CA Decision subject to the following modifications:

1. Phil Fire is liable to plaintiff-appellee through intervenors for the sum of P8,628,278.57 with 6% interest per annum (p.a.) from 26 November 2001 and 12% p.a. from finality of the resolution until full paid;
2. Rizal Surety is liable for P10,616,608.10 with 6% interest p.a. from 26 November 2001 and 12% p.a. from finality of the resolution until fully paid;
3. FPIC is liable for the sum of P10,145,760.11 with 6% interest p.a. from 26 November 2001 and 12% p.a. from finality of resolution until fully paid;
4. Tabacalera Insurance is liable for the sum of P11,189,530.22 with 6% interest p.a. from 26 November 2001 and 12% from finality of resolution until fully paid;
5. Award of 10% attorney's fees is deleted;
6. BDO's MR on the issue of overpayment is remanded to the trial court for computation;
7. The loan mortgage annotations on TCT Nos. 2390684, CCT Nos. PT-1787185, PT-1787286 and PT-1787387 are declared valid and subsisting until the obligations secured thereby shall have been completely discharged based on the trial court's final computation; and
8. Amounts due to Lavine, through intervenors-crossclaimants-appellees, are subject to priority satisfaction of its remaining obligation to BDO, if any subsists based on trial court's final computation as directed, and payment of docket fees corresponding to intervenors-crossclaimants-appellees' money claims as prayed for in their Second Amended Answer–in-Intervention with Counterclaim dated 15 October 2001. Should the trial court's final computation as required yield an overpayment, the same should be reimbursed to Lavine, through intervenor-crossclaimants-appellees.

Intervenors-Crossclaimants-Appellees filed a Motion for Partial Reconsideration (MPR) of the CA Resolution dated 9 June 2011. The CA in its Resolution dated 5 September 2011 denied the MPR for lack of merit. The Motion for Extension of Time to File Petition for Review on Certiorari filed by Phil Fire, and the Appeal by Certiorari filed by plaintiff-appellee Lavine filed before the SC were duly noted.

On 30 June 2011, FPIC filed a Motion for Extension of Time to File PR (under Rule 45 of the Rules of Court) of the CA Decision and CA Resolution with the SC. FPIC filed its PR on Certiorari with the SC on 29 July 2011.

The SC issued a Resolution dated 1 February 2012 which resolved to:
(1) note the withdrawal of appearance of Atty. Arturo S. Santos as counsel for intervenors-crossclaimants respondents Jose F. Manacop, et.al., with conformity;
(2) note the entry of appearance of Atty. Ronaldo M. Caringal of Rivera Santos and Maranan, Unit 2902-D West Tower, Philippine Stock Exchange Centre, Exchange Road, Ortigas Center, Pasig City, as counsel for intervenors-crossclaimants-respondents Jose F. Manacop, et.al., with conformity, requesting that henceforth, all notices, orders and other papers relative to this case be forwarded to them at said address;
(3) grant the motion by respondent BDO for extension of ten (10) days from 7 November 2011 within which to file a comment (re: appeal by certiorari dated 30 June 2011);
(4) note the comment of respondent FPIC re: petitioner's appeal by certiorari dated 30 June 2011;
(5) to require petitioner to file a Reply thereto within ten (10) days from notice hereof;
(6) grant the motion of respondent FPIC to consolidate G.R. No. 197227 with G.R. Nos. 1977219, 197244 and 198481;
(7) grant the respondents motion for extension of twenty (20) days from 18 November 2011 within which to file a comment on the PR;
(8) grant the second and third motion of respondent BDO for extension totaling twenty five days from 17 November 2011 within which to file comment (re: appeal by certiorari dated 30 June 2011);
(9) note the omnibus motion of respondent Phil Fire to be furnished with a copy of the petition for consolidation;
(10) note the comment of counsel for petitioner Lavine on the omnibus motion, stating that it has personally served a copy of the petition upon counsel for respondent Phil Fire at the address provided in the said omnibus motion, with attachments;
(11) note the comment of respondent Phil Fire on Lavine's petition for review on certiorari with prayer for the issuance of temporary restraining order;
(12) require petitioner to file a Reply thereto within ten (10) days from notice hereof;
(13) note the comment of counsel for respondent Rizal Surety on the petition for review on certiorari;
(14) require petitioner to file a Reply thereto within ten (10) days from notice hereof;
(15) note and consider as satisfactory the petitioner's compliance with the Resolution dated 8 August 2011 which required petitioner to submit a proper verification of the petition.

On 6 March 2013, petitioners Ashok C. Ramnani and Rolando M. Vaswani representing Lavine, filed a Supplement which prayed among others, for:

a) annulling of the portion of the assailed CA Decision dated 30 September 2010 and Resolution dated 9 June 2011 insofar as it awarded monetary judgment in favor of intervenors;
b) directing the RTC Pasig –Branch 158 to proceed with the trial of Civil Case no. 00-1554 and SEC Case No. 06-79 until finality to determine the legitimate representation of Lavine;
c) confirming overpayment made by Lavine in favor of Equitable-PCI Bank (BDO) and affirming the remand of the case for purposes of computing the amount overpaid to said Bank;
d) directing that any and all amounts determined after the computation, to be consigned to the lower court for safekeeping until and after the cases pending before Pasig RTC Br. 158 has been decided with finality; and
e) issuing a writ of preliminary injunction to restrain the execution of the CA Decision and Resolution.

Petitioner Lavine and Chandru Ramnani filed a Manifestation with Motion (to Supplement Appeal by Certiorari) dated 11 September 2013. An Additional Supplement (Appeal by Certiorari) dated 26 September 2013 was filed by petitioners Ashok C. Ramnani and Rolando M. Vaswani representing Lavine. Case pending with the SC.

b. *"Chevron Philippines, Inc. (formerly Caltex) vs. FPIC, et.al."*
Civil Case Nos. 02-856 [Makati RTC- Br. 62]/ CA G.R. CV No. 94985
02-858 [Makati RTC-Br. 61]/CA G.R. CV No. 92226/G.R. No. 198039

Chevron Philippines, Inc. (Chevron) filed three civil cases against FPIC for recovery of sum of money pursuant to the terms and conditions of the surety bonds issued by FPIC to secure each of the obligations of Peakstar Oil Corporation (Peakstar), Fumitechniks Corp. of the Philippines (Fumitechniks) and R.S. Cipriano Enterprises (Cipriano) to Chevron. In all these cases, FPIC cited as its defense that in the absence of written principal agreements (between Chevron and the three abovenamed obligors), the surety bonds (issued by FPIC), which are mere accessory contracts, could not have come into being or are void.

The following case remains pending:

Peakstar Account (Civil Case No. 02-856)- Chevron filed a claim against FPIC for the recovery of the sum of P26,257,712.58 before Makati RTC-Branch 62. FPIC filed a Motion to Strike Out Testimony and Evidence of Chevron's witnesses on grounds that they were in violation of the Parol Evidence Rule, irrelevant and immaterial and unenforceable under the Statute of Frauds. The RTC granted FPIC's Motion and the said testimonies and evidence were stricken off the records.

Chevron filed an MR of the Order striking out the testimonies of the plaintiffs' witnesses which was denied by the court. Chevron then filed a PR with the CA which was dismissed by the CA as per Decision dated 28 September 2007 which has become final and executory.

In the RTC, FPIC finished its presentation of evidence and Formal Offer of Evidence (FOE). The parties were asked to file their respective Memoranda. On 26 September 2008, FPIC filed its Memorandum dated 20 September 2008. Chevron filed its Memorandum dated 18 September 2008 (received by FPIC on 2 October 2008). FPIC filed its Reply (to Plaintiff's Memorandum) dated 6 October 2008.

The RTC issued a Decision dated 28 December 2009 in favor of Chevron which ordered FPIC to pay Chevron P26,257,712.58 plus interest starting 6 February 2009 until fully paid plus attorney's fees and costs of suit. FPIC filed its Notice of Appeal on 5 February 2010.

FPIC filed its Appellant's Brief with the CA on 22 November 2011. The CA issued a Resolution dated 31 March 2011 which referred the parties to the Philippine Mediation Center-CA for mediation to give the parties one final chance to explore the possibility of amicable settling their dispute. Mediation proceeding was held on 29 July 2011. Mediation proceedings were terminated as the parties deemed it unlikely for the parties to reach a settlement in view of the legal issues involved. Case was referred back to CA for decision. FPIC filed a Manifestation and Submission dated 10 October 2011 with the CA informing the CA of the pendency of a similar case involving Chevron and FPIC (CA Case No. 92226) and that the MPR filed by Chevron in said case was already denied by the CA and Chevron has already filed a PR with the SC.

FPIC filed a Manifestation and Submission dated 31 January 2012 informing the Honorable Court about the SC (First Division) Decision in the similar case of Fumitechniks (GR No. 177839) which dismissed the complaint filed by Chevron against FPIC in RTC-Makati Br. 61. FPIC submitted that the Decision in said case (G.R. 177839) should be applied in this case and that the complaint filed by Chevron should be dismissed.

FPIC filed a Fifth Manifestation and Submission dated 25 March 2014 manifesting that in the SC Case No. 198039 (Cipriano case), the SC issued a resolution denying with finality the MR filed by Chevron (seeking reconsideration of CA resolution denying Chevron's petition to set aside the CA decision dismissing the complaint of Chevron). Thus, the RTC Decision dated 12/28/09 should be reversed and the judgment be rendered dismissing the complaint and granting the other relief and remedies prayed for in the Appellant's Brief.

The CA (4th Division) issued a Decision dated 15 August 2014 which reversed and set aside the RTC Decision dated 28 December 2009 which held FPIC liable under the surety bond, and dismissed the complaint. However, the dismissal of FPIC's counterclaim was affirmed.

Chevron filed a Motion for Partial Reconsideration (MPR) dated 16 September 2014. FPIC has filed its Opposition to the MPR dated 24 September 2014. CA issued Resolution dated 25 February 2015 denying Chevron's MPR for lack of merit.

Chevron filed Petition for Review (of the CA Decision) dated 15 April 2015 with the SC.

c. *"Qualifurn Marketing Corp. vs. FPIC"*
Civil Case No. 08-679
Makati RTC Br. 59

Status: Case Dismissed

A Complaint for specific performance and damages was filed with Makati RTC Branch 148 by insured Qualifurn Marketing Corp. against FPIC for payment of P20,000,000 for and as actual damages (with 24% interest thereon from 30 July 2007 until fully paid) as its claim under Fire Insurance Policy No. F-29577 issued by FPIC. FPIC denied the claim as the existence and value of the insured items have not been established by plaintiff.

FPIC filed its Answer dated 16 October 2008. FPIC filed a Motion to Conduct Judicial Dispute Resolution (JDR) dated 20 July 2009. The RTC granted the said Motion and set the JDR on 16 September 2009. As no settlement was reached, the JDR was terminated and the case was re-raffled to Makati RTC Branch 59.

Pre-trial was held on 12 March 2010. Plaintiff has presented three (3) witnesses and will present three (3) more witnesses.

FPIC sought to disqualify plaintiff's witness, Atty. Rolando Teves, as he was previously engaged by FPIC to investigate and evaluate the compensability of plaintiff's claim. Hence, FPIC filed a Motion to Disqualify Proposed Witness and/or Quash Subpoena Issued to Said Witness dated 22 November 2012. At the hearing on 4 December 2012, Atty. Teves was admonished by the Judge not to testify. The Court ordered plaintiff to make its FOE within thirty (30) days. Plaintiff filed its FOE, to which FPIC filed its Objections/Comment dated 18 February 2013. The Court ruled to admit plaintiff's FOE. FPIC filed an MR which was denied by the Court on 28 June 2013.

Presentation and cross-examination of FPIC's first witness was held on 11 October 2013. Hearing held on 3 December 2013 for continuation of cross examination of FPIC's witness. Next hearing was set on 18 February 2014. FPIC submitted the Judicial Affidavit of its witness, Atty. Enrico de Leon. Presentation of witness was set on 15 April 2014 but was re-set to 3 June 2014. FPIC presented its last witness on 28 October 2014.

The RTC in its Decision dated 8 May 2015 dismissed the complaint for lack of merit. It also dismissed FPIC's counterclaim for its failure to prove the same. FPIC filed Motion for Entry of Judgment dated 7 August 2015.

d *"Archipelago Philippine Ferries Corporation vs. FPIC,*
Yuen Po Seng, Amado A. Mauleon and Martial V. Careng"
Civil Case No. 12-061
[RTC Muntinlupa Br. 276]

A Complaint for specific performance of insurance contract, exemplary damages attorney's fees was filed by insured Archipelago Philippine Ferries Corporation against FPIC for payment of P13,622,000.62 for and as actual damages for loss of/damage to insured vessel *M/V Maharlika Siete* (with 24% interest thereon until fully paid), exemplary damages of P1,000,000 and attorney's fees of P500,000, under Policy No. MH-NIL-HO-08-0000015-0 issued by FPIC.

FPIC filed its Answer with Special and Affirmative Defenses and Compulsory Counterclaim dated 15 June 2012. Co-respondent Careng filed a MTD dated 30 May 2012. Plaintiff filed its Comment/Opposition to the MTD to which defendant filed its Reply.

The Court in its Order dated 29 August 2012 denied the MTD filed by defendant Careng.

Plaintiff filed a Motion for the Issuance of a Writ of Preliminary Attachment (WPA) and/or Garnishment dated 27 September 2012 against defendants. FPIC filed a Comment/Opposition to plaintiff's Motion for Issuance of the WPA and Garnishment. The Court, in its Order dated 14 April 2013 denied the plaintiff's Motion.

The Court in its Order dated 6 June 2013, referred the case to the Philippine Mediation Center for mediation proceedings on 3 July 2013. Mediation proceedings have been terminated. The preliminary conference before the Branch Clerk of Court for the pre-marking of documents and comparison of photocopies to be marked with originals was set on 8 August 2013.

Preliminary conference originally set on 22 August 2013 was reset to 15 and 17 October 2013. Pre-trial conference has been set on 5 November 2013. In order to buy peace, FPIC offered P2.5 million to plaintiff Archipelago. Judge Medina advised FPIC to bring the check payment and Compromise Agreement at the setting on 4 December 2013. During the 14 December 2013, plaintiff rejected FPIC's offer.

Pre-trial was set on 19 February 2014. Hearing was set on 7 May 2014. FPIC filed a Motion to Amend Answer as well as Pre-trial Brief dated 30 April 2014, which remains pending to date. The Court granted the motion in its Order dated 2 June 2015.

No hearing dates have been set.

g. *FLT Prime Insurance Corporation vs. Solid Guaranty, Inc.*
Civil Case No. 14-381,
(Makati RTC Branch 143)
(For: Recovery of Sum of Money and Damages)

A complaint for recovery of sum of money and damages was filed by FPIC against its reinsurer, Solid Guaranty, Inc. (SGI), in view of the latter's refusal to pay the amount of P10,721,938.50 representing SGI's 45% share in the final settlement amount paid by FPIC to its assured Top Forest Developers, Inc..

Defendant SGI filed its Answer with Counterclaim dated 21 May 2014.

Defendant filed a Motion to Set Case for Preliminary Hearing Based on Affirmative Defenses dated 21 May 2014. The motion was set for hearing on 25 May 2014. However, the hearing set on 25 May 2014 was reset to 8 August 2014. The hearing in August was reset to 8 September 2014. FPIC filed its Comment to the Motion. The Court issued a Resolution dated 24 September 2014 which denied the said motion for utter lack of merit.

Subsequently, Defendant filed an MTD which was denied by the court in its Resolution dated 8 September 2014. Defendant filed an MR of the Resolution dated 24 September 2014, which motion was set for hearing on 13 October 2014. FPIC filed its Opposition to the MR on 13 October 2014. The Motion was deemed submitted for resolution.

Judicial Dispute Resolution hearing on the case reset to 28 September 2015.

Meanwhile defendant filed Motion to Strike Out Plaintiffs Judicial Affidavits. On the hearing of said Motion last 14 August 2015, FPIC filed its Opposition with Alternative Motion to Allow Submission of and Admit Plaintiff's Judicial Affidavits dated 11 August 2015. Defendant given 10 days to file its reply to the Opposition and FPIC given 10 days to file its rejoinder.

Item 6. Management's Discussion and Analysis or Plan of Operation

Fiscal Year 2015

Consolidated Results of Operations

The Group ended the fiscal year with a consolidated net loss of P262.2 million. This includes an impairment loss of P236 million attributed to the decline in value of 1.388 billion shares of Cyber Bay Corporation. Last year's reported Net Income of P205.9 million was due to the recognition of recovery from insurance and gain on sale of Available-for-Sale (AFS) financial assets.

Consolidated Revenues amounted to P692.4 million, lower by 16% from previous year's revenue of P824.7 million. Decrease in Revenues was due to lower gain on sale of AFS financial assets. Revenue from insurance business grew by 6% as fire and accident and health (A&H) lines continue to spearhead growth increasing by 9% and 46%, respectively, during the year. On the other hand, overall occupancy for Tutuban Center slightly improved but was negated by lower rental rates consequently reducing Rental Revenue by 2%. Sales from tile business, mainly sourced from the remaining inventories, dropped by 61%.

Total Cost and Expenses decreased by 7% as cost of goods and services went down by 8%. This includes decrease in cost of sales of and share in common usage service area (CUSA) related expenses of about 75% and 23%, respectively, brought about by lower sales from LCI and reduced power and water consumption. Likewise, Operating Expenses decreased due to lower taxes and licenses.

In March and June, the PNR turned over to TPI a total of 8.8 hectares of Phase II (land and air rights) of the leased property and in turn, TPI paid the corresponding rental of about P115 million. The turnover of the additional land will be a major component in the redevelopment of Tutuban Center which is envisioned to integrate the NSRP of the DOTC with the LRT 2 West line.

TPI

TPI reported a Net Income of P14.9 million during the year compared to P194.0 million Net Income last year. Last year's income was due to the recognition of recovery from insurance. Revenue from mall operations improved by 2%, from P411.9 million to P421.8 million. Overall occupancy improved, however, the decrease in average rental rate negatively impacted Rental Revenue by 2%.

On cost and expenses, there was a slight decrease on CUSA related expenses from P235.0 million to P234.0 million driven by reduced electricity and water usage. Operating expenses increased due to the higher professional fees.

LCI

LCI posted a Net Loss of P31 thousand during the year. Operating cost was compensated by the reversal of accrued interest of about P23 million and gain on disposal of unutilized equipment. Last year's net income was due to the recognition of gain from condonation of debt as a result of approval by the court of the Rehabilitation Plan. Sales from tile business was mainly sourced from the remaining inventories.

FPIC

FPIC's Net Premiums Earned grew by 8%, from last year's P210.6 million to P226.8 million. This was attributable to the 9% and 46% growth on fire and A&H lines, respectively. On the other hand, Commission

Income decreased by 17%. FPIC registered a Net Income of P0.9 million compared to last year's net loss of P15.6 million.

Revenues posted a 6% increase compared to last year, from P222.1 million to P236.5 million. Underwriting Cost decreased by 7% due to lower excess of loss treaty cover and claims.

Financial Condition

Total Assets of the Group stood at P4.5 billion compared to last year's P4.8 billion. Reduction in Total Assets was attributable to the decline in market value of AFS financial assets. Decrease in Cash and Cash Equivalents was due to transfer to AFS financial assets. Decrease in Receivables was due to collection of Insurance Receivables. Current Assets was higher than Total Current Liabilities, which stood at P2.9 billion and P0.8 billion, respectively. Inventories decreased due to sale of remaining stocks. The increase in Investment properties was due to reclassification of land, buildings and improvements previously recorded as property, plant and equipment (PPE) at revalued amounts. Correspondingly, PPE decreased. Other Non-Current Assets increased due to advance rental paid to PNR as a result of the turn over to TPI of about 8.8 hectares of Phase II A (land) and B (air rights).

The decrease in total Group Liabilities was due to the impact of the reclassification of the revaluation increment on PPE on Deferred Income Tax Liabilities. Net decrease in Retirement Benefits Liability was due to increase in contribution to the retirement fund as of the period. Moreover, rental and other deposits increased due to advance rental by tenants. Decrease in Unrealized Valuation Gain on AFS financial assets was due to the effect of the impairment loss recognized during the year.

Financing Through Loans

As of 30 June 2015, the Group has no outstanding loan from any financial institution.

Prospects for the future

The entry of Ayala Land, Inc. will provide the expertise and resources that will optimize the development of the Group's property assets, particularly Tutuban Center. The immediate focus of the planned redevelopment of the entire 20-hectare property will now include the Tutuban Transfer Station which will serve as the interconnection for the government's massive NSRP and the LRT 2 West Station extension.

After the sale of the 31-hectare Sto. Tomas, Batangas and the 1-hectare Mandaue, Cebu properties, the Group will now focus on the conversion of the 15-hectare property in Calamba, Laguna, which houses LCI, into an industrial complex and attain 100% utilization as a warehouse facility within the next two years.

Key Variable and Other Qualitative and Quantitative Factors

Ratios	Formula	30-Jun-15	30-Jun-14
Current Ratio	Current Assets / Current liabilities	3.52:1 2,870,126 / 815,492	3.93:1 3,298,691 / 840,410
Debt to Equity Ratio	Total Liabilities / Equity	0.64 :1 1,714,830 / 2,673,903	0.56 : 1 1,711,654 / 3,042,197
Capital Adequacy Ratio	Equity / Total Assets	0.599 :1 2,673,903 / 4,461,073	0.630:1 3,042,197 / 4,825,990
Book Value per Share	Equity / Total # of shares	1.129 2,673,903 /2,367,149	1.285 3,042,197 / 2,367,149
Income per Share	Net Income / Total # of Shares	-0.111 -262,236 / 2,367,149	0.087 205,903 / 2,367,149

Current ratio shows the Group's ability to meet its short term financial obligation. As of 30 June 2015, the Group has P3.52 worth of Current Assets for every peso of Current Liabilities as compared to P3.93 as of 30 June 2014. The Group has sufficient current assets to support its current liabilities as of the period.

Debt to Equity ratio indicates the extent of the Group's debt which is covered by shareholders' fund. It reflects the relative position of the equity holders. The higher the ratio, the greater the risk being assumed by the creditors. A lower ratio generally indicates greater long term financial safety. Compared to 30 June 2014, debt to equity ratio increased by 14% as a result of the decline in market value of AFS financial assets.

Capital Adequacy Ratio is computed by dividing the Total Stockholders' Equity over Total Assets. It measures the financial strength of the Group. As of 30 June 2015, the Group's Capital Adequacy Ratio is 0.599 compared to last year's 0.630. Decrease was attributable to the decline in market value of AFS financial assets affecting the Total Equity.

Book value per share measures the recoverable amount in the event of liquidation if assets are realized at book value. As of 30 June 2015, the Group has book value per share of P1.129, lower by 12% compared to 30 June 2014.

Income per share is calculated by dividing net income by the weighted average number of shares issued and outstanding. As of 30 June 2015, the Group reported a P0.111 loss per share as compared to last year's P0.087 income per share.

Fiscal Year 2014

Consolidated Results of Operations

The Group ended the fiscal year (FY) with a consolidated Net Income of P205.9 million lower than the P721.2 million reported Net Income last year. Net income was due to the recognition of recovery from insurance and gain on sale of Available for Sale (AFS) financial assets. Last year's Net Income includes gain on condonation of debt, reversal of provision for losses and net gain as a result of change in accounting treatment of investment in affiliate due to dilution of percentage in ownership.

Consolidated revenues amounted to P824.7 million, lower by 22% from previous year's P1.1 billion. Revenue from insurance business grew by 6% as motor car business and accident and health continue to spearhead growth increasing by 7% and 37%, respectively, during the year. On the other hand, overall occupancy for Tutuban Center slightly improved but was negated by the decrease in rental rates consequently reducing rental revenue by 4%. Sales from tile business which were mainly sourced from the remaining inventories, dropped by 91%. The Group posted gain on sale of AFS financial assets.

Total cost and expenses decreased by 29% as cost of goods and services went down by 57%. These include decrease in cost of sales of and share in CUSA related expenses of about 75% and 23%, respectively, brought about by lower sales from LCI and reduced power and water consumption. Likewise, operating expenses decreased due to lower provision for inventory losses and utilities and fuel.

TPI

TPI reported a higher Net Income of P194.0 million during the year compared to P8.1 million last year, due to the recognition of recovery from insurance. Revenue from Mall operations amounted to P411.3 million compared to last year's P420.6 million. Overall occupancy improved; however, the decrease in average rental rate negatively impacted Rental Revenue by 11%.

On cost and expenses, CUSA related expenses decreased by 23% driven by reduced electricity and water usage. Operating expenses decreased due to the one-time impairment loss on Receivables reported last year.

FPIC

Net Premiums Earned (NPE) and Commissions increased by 6% to P222.1 million, as production from motor car, and Accident and Health businesses grew by 7% and 37%, respectively.

Operating expenses slightly decreased by 1%, cost of underwriting remained at P186 million. General and Administrative expenses decrease mainly due to the recognition last year of additional provision for taxes on prior year's income. FPIC reported a Net Loss of P15.6 million compared to a Net Loss of P24.5 million last year.

LCI

Sales from tile business dropped by 93% from the previous year as a result of of the shut down of LCI's manufacturing operations. Sales revenue were primarily sourced from the existing inventories. LCI reported a Net Income of P1.4 billion as of 30 June 2014.

As a result of approval by the Rehabilitation Court of the Rehabilitation Plan, LCI recognized a gain from condonation of debt from related parties amounting to P1.5 billion and P2.6 billion in 2014 and 2013, respectively. In 2013, LCI likewise recognized a gain from condonation of debt from trade creditors amounting to P199.3 million.

With its manufacturing operations shutdown since November 2012, LCI focused its activities on the sale of its remaining inventories and collection of receivables. Accordingly, the company was able to generate positive cash flows from operations, thus increasing Cash and Cash Equivalents to P81.5 million.

Prospects for the Future

The Group will focus on maximizing the value of its assets while continuing to explore opportunities through acquisitions and joint ventures.

This includes the full redevelopment of the 8.5-hectare Tutuban property in Manila, whose lease has been renewed until 2039. Also, the conversion of LCI's 15-hectare property in Calamba, Laguna (on which the LCI plant is located), into an industrial complex has started. It now serves as a warehousing facility for several companies, with a target of 100% utilization of its more than 70,000 sqm. warehousing area in the next three years. This industrial complex model will likewise be explored for the 31-hectare property in Sto. Tomas, Batangas.

In Cebu, the best use for the Company's remaining 1-hectare property in Mandaue is now under study, taking into consideration the soon-to-be completed Government master plan for Mandaue's North Reclamation Area.

The Group will also continue to look into tourism-related initiatives. Its most recent acquisition of a 5.8-hectare beachfront-property Palawan aims to springboard its entry into this sunrise industry.

Key Performance Indicators

The Top 5 Key Performance indicators of the Group are as follows:

Ratios	Formula	30-Jun-14	30-June-13
Current Ratio	Current Assets Current Liabilities	3.90: 1 3,276,966/ 840,038	2.77:1 3,272,663/1,182,766

Current ratio shows the Group's ability to meet its short term financial obligation. As of 30 June 2014, the Group has P3.90 worth of Current Assets for every peso of Current Liabilities as compared to P2.77 as of 30 June 2013. Increase was attributable to the decrease in Accounts Payable and Accrued Expenses. The Group has sufficient Current Assets to support its Current Liabilities as of the period.

Debt to Equity ratio indicates the extent of the Group's debt which is covered by shareholder's fund. It reflects the relative position of the equity holders. The higher the ratio, the greater the risk being assumed by the creditors. A lower ratio generally indicates greater long term financial safety. Compared to 30 June 2013, debt to equity ratio improved as a result of increase in equity for the current period by 11%.

Capital Adequacy Ratio is computed by dividing the Total Stockholders' Equity over Total Assets. It measures the financial strength of the Company. As of 30 June 2014, the Group's Capital Adequacy Ratio is 0.630 compared to last year's 0.562. Improvement was attributable to the reduction in Deficit as of the period.

Book value per share measures the recoverable amount in the event of liquidation if assets are realized at book value. As of 30 June 2014, the Group has book value per share of P1.2852.

Income per share is calculated by dividing Net Income by the weighted average number of shares issued and outstanding. As of 30 June 2014, the Group reported a P0.087 income per share as compared to last year's P0.305 per share.

(viii) There are no known seasonal aspects that had a material effect on the financial condition or results of operations.

Financial Condition

Total Assets of the Group stood at P4.83 billion compared to last year's P4.86 billion. Cash and Cash Equivalents were reduced by 41% due to the acquisition of new investments and purchase of real estate property in San Vicente, Palawan. Accordingly, AFS financial assets and real estate held for sale and development increased by 33% and 53%, respectively. Held-to-Maturity investments that matured were reinvested as AFS financial asset. Decrease in Receivables was due to collection of insurance receivables. The lower cost of Inventories was due to the LCI plant shut down. Increase in other Current Assets was due to unutilized creditable withholding during the period.

Current Assets were higher than its Total Current Liabilities, which stood at P3.28 billion and P0.84 billion, respectively. Decrease in Leasehold Rights, Property Plant and Equipment and Software costs represents depreciation and amortization as of the period.

The Group reported a 17% decrease in Total Liabilities. This was attributable to the 36% reduction in Accounts Payable and Accrued Expenses. Retirement Benefit Obligation decreased due to contribution to the retirement fund as of the period. Increase in Deferred Income Tax liability was a result of the recognition of recovery from insurance. Increase in unrealized valuation loss on AFS financial assets was due to the decline in market value as of the reporting period.

Financing Through Loans

As of the reporting period, the Group has no outstanding loan from any financial institution.

Fiscal Year 2013

Consolidated Results of Operations

The Group ended the FY with a consolidated Net Income of P720.0 million higher than P100.5 million reported Net Income last year. The increase in Net Income was attributable to gain on condonation of debt, reversal of provision for losses and net gain as a result of change in accounting treatment of investment in affiliate due to dilution of percentage in ownership.

Consolidated Revenues reached P1.1 billion, lower by 19% from the previous year's revenue of P1.3 billion. Revenue from insurance business grew by 9% as the motor car business continues to spearhead the growth with a 15% increase this year. On the other hand, TPI's operations were significantly affected by the fire that totally damaged CB 1 and rendered CB 2 non-operational for the rest of the fiscal year.

Accordingly, overall occupancy and the Rent Generating Area (RGA) decreased, and consequently, reduced Rental Revenue by 12% compared to last year. Sales from tile business dropped to almost half of the previous year's revenue as LCI temporarily ceased its manufacturing operations in mid-November 2012. LCI's Sales Revenue was primarily sourced from the existing inventories.

Total Cost and Expenses decreased by 8% as rent and utilities and cost of sales went down by 16% and 32%, respectively, due to lower occupancy and sales volume but was tempered by the significant increase in underwriting costs of insurance business. The increase in operating expenses was attributable to the provision for probable losses negated by lower marketing expenses.

TPI

TPI reported a Net Income of P7.5 million during the year compared to a Net Income of P55.3 million last year. Revenue from mall operations decreased to P417.4 million compared to last year's revenue of P498.8 million which was attributed mainly to the fire that gutted CB 1 and rendered CB 2 non-operational to date. Overall occupancy and RGA decreased, resulting to a 12% reduction in Rental Revenue. With CB 1 and CB 2 non-operational, volume of shoppers in Tutuban Center also decreased affecting other revenue sources, which resulted to other ancillary businesses performing 6% lower than last year.

CUSA-related expenses decreased by 17% driven by reduced electricity usage and lower cost of contracted services. Direct operating expenses also decreased by 14% which can be attributed to the reduced rental payment to PNR.

FPIC

Revenue increased by 9% to P210.0 million attributed to higher Net Premiums Earned (NPE) as production from property, motor car and accident and health businesses grew by 10%, 15% and 24%, respectively.

However, revenue growths were negatively affected by the rise in Underwriting Costs. Operating Expenses increased by 33% due to the accrual of additional provision for taxes on prior year's income. Accordingly, FPIC reported a P24.5 million Net Loss for the year.

LCI

On 23 December 2011, LCI filed a Petition for Rehabilitation (Petition) with RTC-Calamba under the Financial Rehabilitation and Insolvency Act of 2010, to arrest its continuing financial losses for the past several years and to enable it to eventually meet its financial obligations to its creditors. On 20 December 2012, the Court issued an Order approving the Third Amended and Restated Rehabilitation Plan (RP) and ordering LCI to submit a Status Report on the implementation thereof every 90 days. The RP is a combination of debt re-scheduling, debt condonation and debt-equity conversion.

As a result of approval by the Court of the RP, LCI recognized a gain from condonation of debt from trade creditors and related parties amounting to P199.3 million and P2.4 billion, respectively.

In November 2012, LCI temporarily stopped its manufacturing operations as prevailing market conditions remain unfavorable. Cost reduction programs including retrenchment, were implemented as part of its rehabilitation program and to maintain its business viability. LCI focused its activities on the sale of its remaining inventories and collection of receivables. Accordingly, LCI was able to generate positive cash flows from operations and increased its Cash and Cash Equivalents to P85 million.

Sales from tile business dropped to almost half of the previous year's revenue as LCI temporarily stopped its manufacturing operations. Sales Revenue was primarily sourced from the existing inventories. LCI reported a Net Income of P2.6 billion as of 30 June 2013.

<u>Prospects for the Future</u>

While the lingering effects of the September 2012 fire are still being felt within TPI, the Group's priority is to ensure the resumption of normal operations for CB 2 while integrated redevelopment plans for CB are being discussed with a third party consultant.

The repositioning of the Centermall beginning 2014 in terms of concept, tenant mix and exhibit operations is also being explored. The strategic plan for the next three years is to realign current merchandising mix to bring in new complementary businesses involving services, entertainment, and retail outlet hubs. For operational efficiency, a major energy efficiency project that seeks to lower air conditioning and lighting costs is targeted for implementation within the first quarter of 2014.

The 41-room Orion Hotel, which was completed in November. 2012, is leading the transformation of Prime Block. The construction of a complementary coffee shop/restaurant adjacent to the hotel by early 2014 is also being finalized.

Meanwhile, FPIC was able to meet the P250 million minimum capitalization requirement for existing non-life insurance companies by 30-June 2013. The focus now is the thorough evaluation of the viability of the business in the light of the minimum net worth requirement of P550 million by 2016.

For LCI, pending the court ruling that will put the final amendments to the company's rehabilitation plan, Management is exploring other business options for the highest and best use for the property and plant facilities. Initial plans to convert the entire 15-hectare facility into a comprehensive and integrated warehousing complex with PEZA accreditation are currently being evaluated.

In addition, the Group marked its entry into tourism-related initiatives with the acquisition of a 5.8-hectare property in Palawan in September. The property, with a 115-meter beach frontage, is located in the first-class municipality of San Vicente, a largely untapped area of Palawan endowed with white sand beaches, coral reefs, vast forest cover, and varied endemic flora. Plans on the high and best use of the P147 million property are currently being explored.

Current ratio shows the Group's ability to meet its short term financial obligation. As of 30 June 2013, the Group has P2.61 worth of Current Assets for every peso of Current Liabilities as compared to P1.61 as of 30 June 2012. Increase was attributable to the change in accounting treatment of certain investment in affiliate due to the dilution of percentage in ownership. The Group has sufficient current assets to support its current liabilities as of the period.

Debt to Equity ratio indicates the extent of the Group's debt which is covered by shareholder's fund. It reflects the relative position of the equity holders. The higher the ratio, the greater the risk being assumed by the creditors. A lower ratio generally indicates greater long term financial safety. Compared to 30 June 2012, debt-to-equity ratio improved as a result of increase in equity for the current period by 28%.

Capital Adequacy Ratio is computed by dividing the Total Stockholders' Equity over Total Assets. It measures the financial strength of the Group. As of 30 June 2013, the Group's Capital Adequacy Ratio is 0.577 compared to last year's 0.494. Improvement was attributable to reduction in Deficit for the period.

Financial Condition

Total Assets of the Group reached P4.9 billion compared to last year's P4.3 billion. Growth in Total Assets was attributable to the increase in Receivables due to higher losses recoverable from the reinsurers. Proceeds from the sale of Pepsi shares increased Cash and Cash Equivalents to P663.8 million, a 22% increase from the previous year as the Group continues to beef up its cash.

Increase in AFS Investments was a result of change in accounting treatment of investment in CBC from Investments in Associates to AFS Investments, due to dilution of ownership to less than 20% arising from the increase in capital of CBC. Accordingly, the CBC shares were restated at the prevailing market value as at the end of the fiscal year. Current Assets was higher than its Total Current Liabilities, which stood at P3.3 billion and P1.3 billion, respectively. Unrealized Valuation Gain decreased due to realization of profit upon sale of AFS Investments. The lower cost of Inventories was due to the temporary stoppage of plant operations, provision for inventory losses and lower volume of finished goods as of the end of the fiscal year. Similarly, there was a decrease in Leasehold Rights and Software Costs attributable to amortization during the year. Other Current Assets grew by 4% due to unutilized creditable withholding tax and input value added tax. The decline in Other Non-Current Assets was due to the decrease in deferred reinsurance premium.

The Group registered a 6% decrease in Total Liabilities. Trade payables was reduced by 83% due to settlement and condonation of debt of trade creditors as a result of LCI's approved RP. On the other hand, insurance claims increased substantially as a result of claims and losses from property business, which correspondingly increased the amount of receivables from reinsurers. The reduction in Subscription Payable was due to application of advances to affiliates.

<u>Financing Through Loans</u>

As of the reporting period, the Group has no outstanding loan from any financial institution.

INDEPENDENT AUDITORS' REPORT

The Stockholders and the Board of Directors
Prime Orion Philippines, Inc. and Subsidiaries

We have audited the accompanying consolidated financial statements of Prime Orion Philippines, Inc. and its subsidiaries, which comprise the consolidated statements of financial position as at June 30, 2015 and 2014, and the consolidated statements of income, statements of comprehensive income, statements of changes in equity and statements of cash flows for the three years ended June 30, 2015, 2014 and 2013, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Philippine Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

SGV
Building a better working world

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Prime Orion Philippines, Inc. and its subsidiaries as at June 30, 2015 and 2014, and their financial performance and their cash flows for the three years then ended June 30, 2015, 2014 and 2013, in accordance with Philippine Financial Reporting Standards.

PRIME ORION PHILIPPINES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. **Corporate Information and Status of Operations**

Corporate Information
Prime Orion Philippines, Inc. (POPI; the Parent Company) was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on May 19, 1989. The Parent Company's primary purpose then was to acquire by purchase, exchange, assign, donate or otherwise, and to hold, own and use, for investment or otherwise and to sell, assign, transfer, exchange, lease, develop, mortgage, pledge, traffic, deal in and with, and otherwise operate, enjoy and dispose of any and all properties of every kind and description and wherever situated, as and to the extent permitted by law, including but not limited to, buildings, tenements, warehouses, factories, edifices and structures and other improvements, and bonds, debentures, promissory notes, shares of capital stock, or other securities and obligations, created, negotiated or issued by any corporation, association, or other entity, domestic or foreign. The Parent Company's registered office address is 20/F LKG Tower, 6801 Ayala Ave., Makati City.

Prime Orion Philippines, Inc. and its subsidiaries, collectively referred to as "the Group", have principal business interests in holding companies, real estate and property development, financial services and manufacturing and distribution (see Note 26).

Status of Operations
On December 23, 2011, Lepanto Ceramics, Inc. (LCI; a subsidiary) filed a Petition for Rehabilitation (PR) with the Regional Trial Court of Calamba (RTC-Calamba) under Republic Act (RA) No. 10142, otherwise known as the Financial Rehabilitation and Insolvency Act of 2010, to arrest LCI's continuing financial losses for the past several years and to enable it to eventually meet its financial obligations to its creditors. On January 13, 2012, RTC-Calamba, Branch 34 (the Court) issued a Commencement Order which stayed enforcement of all claims against LCI accruing prior to January 13, 2012. On March 26, 2012, the Court issued an Order, giving due course to the PR, appointing a Rehabilitation Receiver (RR) and directing him to submit an amended Rehabilitation Plan (RP) based on comments submitted by creditors.

However, the Revised and Restated RP, the Second Amended and Restated RP, and the Third Amended and Restated RP, all of which were crafted by the RR, were respectively voted upon and rejected by the creditors. On November 28, 2012, the RR submitted to the Court the Third Amended and Restated RP with the Recommendation to Confirm the Third Amended and Restated RP Pursuant to Section 63, of RA No. 10142.

On December 20, 2012, the Court issued an Order approving the Third Amended and Restated RP ("Approved RP") and ordering LCI to submit a Status Report on the implementation thereof every 90 days. On January 11, 2013, the RR issued a Notice to Creditors that the pay-out of claims would commence on January 21, 2013.

The following are the conditions provided in the Third Amended and Restated RP approved by the Court:

a. Class 1 (Workers) shall be paid the full amount of their allowed claims within one (1) year from approval of the Third Amended and Restated RP;

b. Class 2 (Local Government of Calamba) shall be paid the full amount of its allowed claim within one (1) year from approval of the Third Amended and Restated RP;

c. Class 3 (Trade) Creditors will condone 85% of their allowed claims;

d. Class 4 (Non-Trade Unsecured) Creditors will advance to LCI such amount necessary to pay 15% of the allowed claim of each Class 3 (Trade) Creditor;

e. The post commencement advances of Class 4 (Non-Trade Unsecured) Creditors will be converted to voting common shares;

f. The pre-commencement allowed claims of Class 4 (Non-Trade Unsecured) Creditors will be condoned;

g. Class 5 (Secured) Creditors will condone its claims in excess of the market value of the Company's assets which serve as a security for LCI's liability to the Secured Creditor. All servicing of the remaining claims of Class 5 (Secured) Creditor will be made after the Class 3 (Trade) Creditors are settled; and

h. The common shares held by the Class 5 (Secured Creditor) in LCI will be converted to preferred shares.

As a result of the approval by the Court of the Third Amended and Restated RP, LCI recognized a gain on condonation of debt from trade creditors and related parties amounting to nil, ₱1,499.78 million and ₱2,559.45 million in 2015, 2014 and 2013, respectively (see Note 18). In 2013, the Group also recognize a gain on condonation of debt from trade creditors amounting to ₱199.28 million (see Note 16).

On August 12, 2013, LCI filed a Motion to Amend Rehabilitation Plan seeking the following amendments to the Third Amended and Restated RP:

a. Inclusion of the Deposit for Future Subscription of Orion I Holdings Philippines, Inc. (OIHPI) in the amount of ₱373.62 million among the claims to be condoned; and

b. Condonation of the claims of OIHPI to the extent of 60% of the market value of LCI's assets securing the Mortgage Trust Indenture (MTI) and Collateral Trust Indenture, or in the amount of ₱677.50 million and an adjustment on the excess market value of the collateral amounting to ₱451.66 million to attain solvency.

Both RR and the affected creditor, OIHPI, filed their comment to the Motion to Amend, signifying their assent thereto. On March 3, 2014, the Court issued an Order granting the Motion to Amend.

On May 29, 2014, LCI filed a Motion for Termination of Rehabilitation Proceedings, stating that LCI has substantially accomplished the tasks and conditions provided in the Third Amended and Restated RP, as follows:

a. Payment to claimants - LCI has already paid 50% of its obligation to Class 1 creditors amounting to ₱0.72 million. Class 2 creditor has already been paid in full. Meanwhile, Class 3 creditors have been paid ₱34.23 million or 86% of their claim. The unclaimed payments were deposited to Metropolitan Bank and Trust Company (MBTC) as "Unclaimed Claims Reserve Fund" (the Fund). A creditor or worker may obtain payment from the account upon presentation of sufficient proof of authority or identity within two (2) years from the opening of the account.

b. Conversion of shares - LCI's Board of Directors (BOD) authorized the conversion of shares of stocks in accordance with the conditions in the Third Amended Plan. On April 30, 2013, the SEC approved the amendment of its Articles of Incorporation to reflect the said conversion.

c. Condonation of debt - In a special meeting held on March 27, 2014, the BOD of OIHPI approved a resolution condoning the entire unsecured claim and a portion of its secured claim equivalent to 60% of the market value of LCI's collateral assets. Included in the debts condoned are loans listed in the books of LCI as Deposit for Future Subscription included under "Amounts owed to related parties" amounting to ₱373.62 million.

On August 28, 2014, the Court granted LCI's Motion for Termination of Rehabilitation Proceedings and declared LCI's successful rehabilitation. The rehabilitation expenses incurred by LCI amounted to ₱0.61 million and ₱13.49 million in 2015 and 2014, respectively.

As at June 30, 2015 and 2014, LCI has settled a portion of its liability to its creditors under the approved rehabilitation plan amounting to ₱0.14 million and ₱1.52 million, respectively.

With the total lifting of the import safeguards for ceramic tiles beginning 2010, LCI suspended its manufacturing operations in 2012 and started renting out its warehouses in July 2014. The amended articles of incorporation of LCI states that LCI may purchase, acquire, own, lease, sell and convey real properties such as lands, buildings, factories and warehouses and machineries, equipment and other personal properties as may be necessary or incidental to the conduct of the corporate business, and to pay in cash, shares of its capital stock, debentures and other evidences of indebtedness, or other securities, as may be deemed expedient, for any business or property acquired by the corporation as one of its secondary purposes.

On September 4, 2012, certain property and equipment and investment properties of Tutuban Properties, Inc. (TPI; a subsidiary) were damaged by fire. Fixed assets which were completely destroyed were written off, while those partially damaged assets were provided with an allowance for impairment. These property losses, with a net book value of ₱63.25 million are recorded as "Casualty loss" in the 2013 consolidated statement of income.

FLT Prime Insurance Corporation (FPIC), the insurance policy provider and a related party, recognized the incident as a fire loss event. The insurance policy was substantially ceded by FPIC to third party reinsurers. In line with this, TPI recognized recovery from insurance amounting to nil, ₱269.28 million and ₱78.09 million in the consolidated statement of income in 2015, 2014 and 2013, respectively.

TPI received insurance proceeds from FPIC amounting to ₱204.90 million and ₱174.71 million in 2015 and 2014, respectively.

In January 2015, TPI opened Orion Café adjacent to Orion Hotel, which is also located at the third level of the Tutuban Primeblock Building. The café offers a comfortable area where guests can relax and enjoy gourmet coffee, refreshing drinks and delicious meals and snacks.

On April 1, 2015, TPI signed a Memorandum of Understanding (MOU) with the Department of Transportation and Communication (DOTC) and Philippine National Railways (PNR) to formalize the agreement to cooperate in the finalization and implementation of plans to North-South Railway Project (NSRP) within a period of six (6) months. The NSRP involves construction of the North Line (Bulacan to Tutuban) and South Line (Tutuban to Albay) with the transfer station located at Tutuban Center.

The consolidated financial statements of the Group as at June 30, 2015 and 2014 and for years ended June 30, 2015, 2014 and 2013 were approved and authorized for issue in accordance with the resolution by the BOD on October 9, 2015.

2. Basis of Preparation, Statement of Compliance, Basis of Consolidation and Summary of Significant Accounting and Financial Reporting Policies

Basis of Preparation
The consolidated financial statements have been prepared on a historical cost basis, except for available-for-sale (AFS) financial assets, land, land improvements, building and building improvements (included under "Property, plant and equipment") and financial assets at fair value through profit or loss (FVPL) that are carried at fair values. The consolidated financial statements are presented in Philippine peso, which is the Group's functional and presentation currency under Philippines Financial Reporting Standards (PFRS). All values are rounded off to the nearest thousand (₱1,000) except when otherwise indicated.

Statement of Compliance
The consolidated financial statements of the Group have been prepared in compliance with PFRS.

Basis of Consolidation
The consolidated financial statements include the accounts of the Parent Company and its subsidiaries as at June 30, 2015 and 2014:

Subsidiaries	Nature of Business	Effective Percentage of Ownership	
		2015	2014

* *Inactive*

All of the companies are incorporated and based in the Philippines.

Subsidiaries are consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which control is transferred out of the Group.

The financial statements of the subsidiaries are prepared for the same accounting period as the Parent Company using uniform accounting policies. All significant intercompany transactions and balances between and among the Group, including intercompany profits and unrealized profits, have been eliminated in the consolidation.

Non-controlling interests represent the portion of profit or loss and net assets in the subsidiaries not held by the Group and are presented separately in the consolidated statement of income, consolidated statement of comprehensive income and within equity in the consolidated statement of financial position, separately from the equity holders of the parent.

Changes in Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year except for the following new and amended PFRS, Philippine Accounting Standards (PAS), Philippine Interpretations based on International Financial Reporting Interpretations Committee (IFRIC) and improvements to PFRS which were adopted as at July 1, 2014.

- PAS 32, *Financial Instruments: Presentation - Offsetting Financial Assets and Financial Liabilities* (Amendments)
  These amendments clarify the meaning of "currently has a legally enforceable right to set-off" and the criteria for non-simultaneous settlement mechanisms of clearing houses to qualify for offsetting and are applied retrospectively. The Group is presenting its financial assets and financial liabilities at gross amounts in the consolidated statement of financial position.

- PAS 36, *Impairment of Assets - Recoverable Amount Disclosures for Nonfinancial Assets* (Amendments)
  These amendments remove the unintended consequences of PFRS 13, *Fair Value Measurement* on the disclosures required under PAS 36. In addition, these amendments

require disclosure of the recoverable amounts for the assets or cash-generating units (CGUs) for which impairment loss has been recognized or reversed during the period. The application of amendments has no effect on the Group's financial position or performance.

- PAS 39, *Financial Instruments: Recognition and Measurement - Novation of Derivatives and Continuation of Hedge Accounting* (Amendments)
  These amendments provide relief from discontinuing hedge accounting when novation of a derivative designated as a hedging instrument meets certain criteria and retrospective application is required. The Group expects that this amendment will have no effect in consolidated financial statements, as the Group has no derivatives during the current or prior period.

- Investment Entities (Amendments to PFRS 10, *Consolidated Financial Statements,* PFRS 12, *Disclosure of Interests in Other Entities,* and PAS 27, *Separate Financial Statements*)
  These amendments provide an exception to the consolidation requirement for entities that meet the definition of an investment entity under PFRS 10. The exception to consolidation requires investment entities to account for subsidiaries at FVPL. It is not expected that this amendment would be relevant to the Group since the Group would not qualify to be an investment entity under PFRS 10.

- Philippine Interpretation IFRIC 21, *Levies* (IFRIC 21)
  IFRIC 21 clarifies that an entity recognizes a liability for a levy when the activity that triggers payment, as identified by the relevant legislation, occurs. For a levy that is triggered upon reaching a minimum threshold, the interpretation clarifies that no liability should be anticipated before the specified minimum threshold is reached. Retrospective application is required for IFRIC 21. The Group does not expect that IFRIC 21 will have material financial effect in future consolidated financial statements.

Annual Improvements to PFRSs (2010-2012 cycle)
In the 2010-2012 annual improvements cycle, seven (7) amendments to six (6) standards were issued, which included an amendment to PFRS 13, *Fair Value Measurement*. The amendment to PFRS 13 is effective immediately and it clarifies that short-term receivables and payables with no stated interest rates can be measured at invoice amounts when the effect of discounting is immaterial. This amendment has no effect on the Group's consolidated financial statements.

Annual Improvements to PFRSs (2011-2013 cycle)
In the 2011-2013 annual improvements cycle, four (4) amendments to four (4) standards were issued, which included an amendment to PFRS 1, *First-time Adoption of Philippine Financial Reporting Standards-First-time Adoption of PFRS*. The amendment to PFRS 1 is effective immediately. It clarifies that an entity may choose to apply either a current standard or a new standard that is not yet mandatory, but permits early application, provided either standard is applied consistently throughout the periods presented in the entity's first PFRS financial statements. This amendment has no effect on the Group as it is not a first-time PFRS adopter.

Standards and Interpretations Issued but not yet Effective
The Group will adopt the following standards and interpretations enumerated below when these become effective. Except as otherwise indicated, the Group does not expect the adoption of these new and amended standards and interpretations to have a significant effect on its consolidated financial statements.

Effective Date to be Determined:

- PFRS 9, *Financial Instruments - Classification and Measurement* (2010 version)
  PFRS 9 (2010 version) reflects the first phase on the replacement of PAS 39 and applies to the classification and measurement of financial assets and liabilities as defined in PAS 39. PFRS 9 requires all financial assets to be measured at fair value at initial recognition. A debt financial asset may, if the fair value option (FVO) is not invoked, be subsequently measured at amortized cost if it is held within a business model that has the objective to hold the assets to collect the contractual cash flows and its contractual terms give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal outstanding. All other debt instruments are subsequently measured at FVPL. All equity financial assets are measured at fair value either through other comprehensive income (OCI) or profit or loss. Equity financial assets held for trading must be measured at FVPL. For FVO liabilities, the amount of change in the fair value of a liability that is attributable to changes in credit risk must be presented in OCI. The remainder of the change in fair value is presented in profit or loss, unless presentation of the fair value change relating to the entity's own credit risk in OCI would create or enlarge an accounting mismatch in profit or loss. All other PAS 39 classification and measurement requirements for financial liabilities have been carried forward to PFRS 9, including the embedded derivative bifurcation rules and the criteria for using the FVO. The adoption of the first phase of PFRS 9 will have an effect on the classification and measurement of the Group's financial assets, but will potentially have no effect on the classification and measurement of financial liabilities.

  PFRS 9 (2010 version) is effective for annual periods beginning on or after January 1, 2015. This mandatory adoption date was moved to January 1, 2018 when the final version of PFRS 9 was adopted by the Financial Reporting Standards Council (FRSC). Such adoption, however, is still for approval by the Board of Accountancy (BOA).

- Philippine Interpretation IFRIC 15, *Agreements for the Construction of Real Estate*
  This interpretation covers accounting for revenue and associated expenses by entities that undertake the construction of real estate directly or through subcontractors. The SEC and the FRSC have deferred the effectivity of this interpretation until the final revenue standard is issued by the International Accounting Standards Boards (IASB) and an evaluation of the requirements of the final revenue standard against the practices of the Philippine real estate industry is completed. Adoption of the interpretation when it becomes effective will not have any effect on the Group's consolidated financial statements.

The following new standards and amendments issued by the IASB were already adopted by the FRSC but are still for approval of the BOA.

Effective January 1, 2015:

- PAS 19, *Employee Benefits - Defined Benefit Plans: Employee Contributions* (Amendments)
  PAS 19 requires an entity to consider contributions from employees or third parties when accounting for defined benefit plans. Where the contributions are linked to service, they should be attributed to periods of service as a negative benefit. These amendments clarify that, if the amount of the contributions is independent of the number of years of service, an

entity is permitted to recognize such contributions as a reduction in the service cost in the period in which the service is rendered, instead of allocating the contributions to the periods of service. This amendment is effective for annual periods beginning on or after January 1, 2015. It is not expected that this amendment would be relevant to the Group, since they have no defined benefit contribution plan with contributions from employees and third parties.

Annual Improvements to PFRSs (2010-2012 cycle)
The Annual Improvements to PFRSs (2010-2012 cycle) are effective for annual periods beginning on or after January 1, 2015 and are not expected to have a material effect to the Group. They include:

- PFRS 2, *Share-based Payment - Definition of Vesting Condition*
  This improvement is applied prospectively and clarifies various issues relating to the definitions of performance and service conditions which are vesting conditions, including:

  - A performance condition must contain a service condition.
  - A performance target must be met while the counterparty is rendering service.
  - A performance target may relate to the operations or activities of an entity, or to those of another entity in the same group.
  - A performance condition may be a market or non-market condition.
  - If the counterparty, regardless of the reason, ceases to provide service during the vesting period, the service condition is not satisfied.

  The amendment does not apply to the Group as it has no share-based payment.

- PFRS 3, *Business Combinations - Accounting for Contingent Consideration in a Business Combination*
  The amendment is applied prospectively for business combinations for which the acquisition date is on or after July 1, 2014. It clarifies that a contingent consideration that is not classified as equity is subsequently measured at FVPL whether or not it falls within the scope of PAS 39 (or PFRS 9, *Financial Instruments*, if early adopted). The Group shall consider this amendment for future business combinations.

- PFRS 8, *Operating Segments - Aggregation of Operating Segments and Reconciliation of the Total of the Reportable Segments' Assets to the Entity's Assets*
  The amendments are applied retrospectively and clarify that:

  - An entity must disclose the judgments made by management in applying the aggregation criteria in the standard, including a brief description of operating segments that have been aggregated and the economic characteristics (e.g., sales and gross margins) used to assess whether the segments are 'similar'.
  - The reconciliation of segment assets to total assets is only required to be disclosed if the reconciliation is reported to the chief operating decision maker, similar to the required disclosure for segment liabilities.

- PAS 16, *Property, Plant and Equipment*, and PAS 38*, Intangible Assets - Revaluation Method - Proportionate Restatement of Accumulated Depreciation and Amortization*
  The amendment is applied retrospectively and clarifies in PAS 16 and PAS 38 that the asset may be revalued by reference to the observable data on either the gross or the net carrying amount. In addition, the accumulated depreciation or amortization is the difference between the gross and carrying amounts of the asset.

- PAS 24, *Related Party Disclosures - Key Management Personnel*
  The amendment is applied retrospectively and clarifies that a management entity, which is an entity that provides key management personnel services, is a related party subject to the related party disclosures. In addition, an entity that uses a management entity is required to disclose the expenses incurred for management services.

Annual Improvements to PFRSs (2011-2013 cycle)
The Annual Improvements to PFRSs (2011-2013 cycle) are effective for annual periods beginning on or after January 1, 2015 and are not expected to have a material effect to the Group. They include:

- PFRS 3, *Business Combinations - Scope Exceptions for Joint Arrangements*
  The amendment is applied prospectively and clarifies the following regarding the scope exceptions within PFRS 3:

  - Joint arrangements, not just joint ventures, are outside the scope of PFRS 3.
  - This scope exception applies only to the accounting in the financial statements of the joint arrangement itself.

- PFRS 13, *Fair Value Measurement - Portfolio Exception*
  The amendment is applied prospectively and clarifies that the portfolio exception in PFRS 13 can be applied not only to financial assets and financial liabilities, but also to other contracts within the scope of PAS 39 or (PFRS 9, as applicable).

- PAS 40, *Investment Property*
  The amendment is applied prospectively and clarifies that PFRS 3, and not the description of ancillary services in PAS 40, is used to determine if the transaction is the purchase of an asset or business combination. The description of ancillary services in PAS 40 only differentiates between investment property and owner-occupied property (i.e., property, plant and equipment).

*Effective January 1, 201*6:

- PAS 16, *Property, Plant and Equipment*, and PAS 38, *Intangible Assets* - *Clarification of Acceptable Methods of Depreciation and Amortization* (Amendments)
  The amendments clarify the principle in PAS 16 and PAS 38 that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortize intangible assets. The amendments are effective prospectively for annual periods beginning on or after January 1, 2016, with early adoption permitted. These amendments are not expected to have any effect to the Group given that the Group has not used a revenue-based method to depreciate its non-current assets.

- PAS 16*, Property, Plant and Equipment*, and PAS 41, *Agriculture - Bearer Plants* (Amendments)
  The amendments change the accounting requirements for biological assets that meet the definition of bearer plants. Under the amendments, biological assets that meet the definition of bearer plants will no longer be within the scope of PAS 41. Instead, PAS 16 will apply. After initial recognition, bearer plants will be measured under PAS 16 at accumulated cost (before maturity) and using either the cost model or revaluation model (after maturity). The amendments also require that produce that grows on bearer plants will remain in the scope of PAS 41 measured at fair value less costs to sell. For government grants related to bearer plants, PAS 20, *Accounting for Government Grants and Disclosure of Government Assistance*, will apply. The amendments are retrospectively effective for annual periods beginning on or after January 1, 2016, with early adoption permitted. These amendments are not expected to have any effect to the Group as the Group does not have any bearer plants.

- PAS 27, *Separate Financial Statements - Equity Method in Separate Financial Statements* (Amendments)
  The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. Entities already applying PFRS and electing to change to the equity method in its separate financial statements will have to apply that change retrospectively. For first-time adopters of PFRS electing to use the equity method in its separate financial statements, they will be required to apply this method from the date of transition to PFRS. The amendments are effective for annual periods beginning on or after January 1, 2016, with early adoption permitted. These amendments will not have any effect on the Group's consolidated financial statements.

- PFRS 10, *Consolidated Financial Statements* and PAS 28, *Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
  These amendments address an acknowledged inconsistency between the requirements in PFRS 10 and those in PAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. These amendments require that a full gain or loss is recognized when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognized when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary. These amendments will not have any effect on the Group's consolidated financial statements.

- PFRS 11, *Joint Arrangements - Accounting for Acquisitions of Interests in Joint Operations* (Amendments)
  The amendments to PFRS 11 require that a joint operator accounting for the acquisition of an interest in a joint operation, in which the activity of the joint operation constitutes a business must apply the relevant PFRS 3 principles for business combinations accounting. The amendments also clarify that a previously held interest in a joint operation is not remeasured on the acquisition of an additional interest in the same joint operation while joint control is retained. In addition, a scope exclusion has been added to PFRS 11 to specify that the amendments do not apply when the parties sharing joint control, including the reporting entity, are under common control of the same ultimate controlling party. The amendments apply to both the acquisition of the initial interest in a joint operation and the acquisition of any additional interests in the same joint operation and are prospectively effective for annual periods beginning on or after January 1, 2016, with early adoption permitted. These amendments are not expected to have any effect to the Group.

- PFRS 14, *Regulatory Deferral Accounts*
  PFRS 14 is an optional standard that allows an entity, whose activities are subject to rate-regulation, to continue applying most of its existing accounting policies for regulatory deferral account balances upon its first-time adoption of PFRS. Entities that adopt PFRS 14 must present the regulatory deferral accounts as separate line items on the statement of financial position and present movements in these account balances as separate line items in the statement of profit or loss and statement of other comprehensive income. The standard requires disclosures on the nature of, and risks associated with, the entity's rate-regulation and the effects of that rate-regulation on its financial statements. PFRS 14 is effective for annual periods beginning on or after January 1, 2016. Since the Group is an existing PFRS preparer, this standard would not apply.

Annual Improvements to PFRSs (2012-2014 cycle)
The Annual Improvements to PFRSs (2012-2014 cycle) are effective for annual periods beginning on or after January 1, 2016 and are not expected to have a material effect to the Group. They include:

- PFRS 5, *Non-current Assets Held for Sale and Discontinued Operations - Changes in Methods of Disposal*
  The amendment is applied prospectively and clarifies that changing from a disposal through sale to a disposal through distribution to owners and vice-versa should not be considered to be a new plan of disposal, rather it is a continuation of the original plan. There is, therefore, no interruption of the application of the requirements in PFRS 5. The amendment also clarifies that changing the disposal method does not change the date of classification.

- PFRS 7, *Financial Instruments: Disclosures - Servicing Contracts*
  PFRS 7 requires an entity to provide disclosures for any continuing involvement in a transferred asset that is derecognized in its entirety. The amendment clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. An entity must assess the nature of the fee and arrangement against the guidance in PFRS 7 in order to assess whether the disclosures are required. The amendment is to be applied such that the assessment of which servicing contracts constitute continuing involvement will need to be done retrospectively. However, comparative disclosures are not required to be provided for any period beginning before the annual period in which the entity first applies the amendments.

- PFRS 7 - *Applicability of the Amendments to PFRS 7 to Condensed Interim Financial Statements*
  This amendment is applied retrospectively and clarifies that the disclosures on offsetting of financial assets and financial liabilities are not required in the condensed interim financial report unless they provide a significant update to the information reported in the most recent annual report.

- PAS 19, *Employee Benefits - Regional Market Issue Regarding Discount Rate*
  This amendment is applied prospectively and clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located. When there is no deep market for high quality corporate bonds in that currency, government bond rates must be used.

- PAS 34, *Interim Financial Reporting - Disclosure of Information 'Elsewhere in the Interim Financial Report'*
  The amendment is applied retrospectively and clarifies that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the greater interim financial report (e.g., in the management commentary or risk report).

Effective January 1, 2018:

- PFRS 9, *Financial Instruments - Hedge Accounting* and Amendments to PFRS 9, PFRS 7 and PAS 39 (2013 version)
  PFRS 9 (2013 version) already includes the third phase of the project to replace PAS 39 which pertains to hedge accounting. This version of PFRS 9 replaces the rules-based hedge accounting model of PAS 39 with a more principles-based approach. Changes include replacing the rules-based hedge effectiveness test with an objectives-based test that focuses on the economic relationship between the hedged item and the hedging instrument, and the effect of credit risk on that economic relationship; allowing risk components to be designated as the hedged item, not only for financial items but also for non-financial items, provided that the risk component is separately identifiable and reliably measurable; and allowing the time value of an option, the forward element of a forward contract and any foreign currency basis spread to be excluded from the designation of a derivative instrument as the hedging instrument and accounted for as costs of hedging. PFRS 9 also requires more extensive disclosures for hedge accounting.

  PFRS 9 (2013 version) has no mandatory effective date. The mandatory effective date of January 1, 2018 was eventually set when the final version of PFRS 9 was adopted by the FRSC. The adoption of the final version of PFRS 9, however, is still for approval by BOA. The adoption of PFRS 9 is not expected to have any significant effect on the Group's consolidated financial statements.

- PFRS 9, *Financial Instruments* (2014 or Final Version)
  In July 2014, the final version of PFRS 9 was issued. PFRS 9 reflects all phases of the financial instruments project and replaces PAS 39 and all previous versions of PFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. PFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. Retrospective application is required, but comparative information is not compulsory. Early application of previous versions of PFRS 9 is permitted if the date of initial application is before February 1, 2015.

  The adoption of PFRS 9 will have an effect on the classification and measurement of the Group's financial assets and methodology for financial assets, but will have no effect on the classification and measurement of the Group's financial liabilities. The adoption will also have an effect on the Group's application of hedge accounting. The Group is currently assessing the effect of adopting this standard.

The following new standard issued by the IASB has not yet been adopted by the FRSC.

- International Financial Reporting Standards (IFRS) 15, *Revenue from Contracts with Customers*
  IFRS 15 was issued in May 2014 and establishes a new five-step model that will apply to revenue arising from contracts with customers. Under IFRS 15 revenue is recognized at an

amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in IFRS 15 provide a more structured approach to measuring and recognizing revenue. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Group is currently assessing the effect of IFRS 15 and plans to adopt the new standard on the required effective date once adopted locally.

The revised, amended and additional disclosures or accounting changes provided by the standards and interpretations will be included in the financial statements in the year of adoption, if applicable.

Summary of Significant Accounting and Financial Reporting Policies

Presentation of Financial Statements
The Group has elected to present two statements, a consolidated statement of income and a consolidated statement of comprehensive income, rather than a single consolidated statement of comprehensive income containing the two elements.

Financial Instruments - Initial Recognition
Financial instruments within the scope of PAS 39 are classified as financial assets and liabilities at FVPL, loans and receivables, held-to-maturity (HTM) investments, AFS financial assets, financial liabilities or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Group determines the classification of its financial instruments at initial recognition.

All financial instruments are recognized initially at fair value plus transaction costs, except in the case of financial instruments recorded at FVPL.

As at June 30, 2015 and 2014, the Group’s financial assets are in the nature of loans and receivables, financial assets at FVPL and AFS financial assets. The Group has no financial assets classified as HTM investments as at June 30, 2015 and 2014.

Purchases or sales of financial instruments that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognized on the trade date (i.e., the date that the Group commits to purchase or sell the asset).

Financial liabilities within the scope of PAS 39 are classified as financial liabilities at FVPL, as derivatives designated as hedging instruments in an effective hedge, or as other financial liabilities. The Group determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value and in the case of other financial liabilities, plus directly attributable transaction costs.

As at June 30, 2015 and 2014, the Group’s financial liabilities are in the nature of other financial liabilities. As at June 30, 2015 and 2014, the Group has no financial liabilities classified as at FVPL and derivatives designated as hedging instruments in an effective hedge.

Financial Instruments - Subsequent Measurement
The subsequent measurement of financial instruments depends on their classification as follows:

Loans and Receivables
Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in interest income in the consolidated statement of income. Gains and losses are recognized in the consolidated statement of income when the loans and receivables are impaired or derecognized. Loans and receivables are included in current assets if maturity is within twelve (12) months from the end of the reporting period. Otherwise, these are classified as noncurrent assets.

The Group's loans and receivables include cash and cash equivalents, receivables, amounts owed by related parties and refundable deposits (included under "Other noncurrent assets"; see Notes 4, 5, 15 and 18).

AFS Financial Assets
AFS financial assets include equity and debt securities. AFS financial assets consist of investment in equity securities which are neither classified as held for trading nor designated at FVPL. Debt securities in this category are those that are intended to be held for an indefinite period of time and that may be sold in response to needs for liquidity or in response to changes in the market conditions.

Financial assets may be designated at initial recognition as AFS financial assets if they are purchased and held indefinitely, and may be sold in response to liquidity requirements or changes in market conditions.

AFS financial assets are included in current assets if it is expected to be realized or disposed of within twelve (12) months from the end of the reporting period. Otherwise, these are classified as noncurrent assets.

After initial recognition, AFS financial assets are subsequently measured at fair value with unrealized gains and losses recognized under OCI in the "Unrealized valuation gains (losses) on AFS financial assets" in the consolidated statement of changes in equity until the investment is derecognized, at which time the cumulative gain or loss is recognized in the consolidated statement of income, or the investment is determined to be impaired, when the cumulative loss is reclassified from equity to the consolidated statement of income as finance costs. Where the Group holds more than one investment in the same security, these are deemed to be disposed of on a first-in, first-out basis. Interest earned on holding AFS financial assets are reported as interest income using the EIR. Dividends earned on holding AFS financial assets are recognized in the consolidated statement of income when the right of payment has been established. The losses arising from impairment of such investments are recognized in the consolidated statement of income.

The Group's listed and nonlisted equity securities and quoted and unquoted debt securities are classified under this category (see Note 8).

Financial Assets at FVPL
Financial assets at FVPL include financial assets held for trading and financial assets designated upon initial recognition at FVPL. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by PAS 39. Derivatives, including separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets at FVPL are carried in the consolidated statement of financial position at fair value with changes in fair value recognized in the consolidated statement of income.

The Group evaluated its financial assets at FVPL (held for trading) whether the intent to sell them in the near term is still appropriate. When the Group is unable to trade these financial assets due to inactive markets and management's intent to sell them in the foreseeable future significantly changes, the Group may elect to reclassify these financial assets in rare circumstances. The reclassification to loans and receivables, AFS financial assets or HTM investments depends on the nature of the asset. This evaluation does not affect any financial assets designated at FVPL using the fair value option at designation.

The Group's redeemable preference shares are classified under this category (see Note 9).

Other Financial Liabilities
After initial recognition, interest-bearing other financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any issue costs, and any discount or premium on acquisition and fees or costs that are an integral part of the EIR. Gains and losses are recognized in the consolidated statement of income when the liabilities are derecognized as well as through the amortization process.

The Group's financial liabilities include accounts payable and accrued expenses and rental and other deposits (see Notes 16 and 17).

<u>Fair Value Measurement</u>
The Group measures financial instruments, such as financial assets at FVPL, at fair value at each end of the reporting period. Also, fair values of financial instruments measured are disclosed in Note 31.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or

- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at each end of the reporting period.

The fair value of financial instruments that are actively traded in organized financial markets is determined by reference to quoted market close prices at the close of business on the end of the reporting period.

For financial instruments where there is no active market, fair value is determined using valuation techniques. Such techniques include comparison to similar investments for which market observable prices exist and discounted cash flow analysis or other valuation models.

For the purpose of fair value disclosures, the Group has determined the classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

Impairment of Financial Assets

The Group assesses at each end of the reporting period whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Financial Assets Carried at Amortized Cost

For financial assets carried at amortized cost, the Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial assets original EIR. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current EIR.

The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognized in the consolidated statement of income. Loans and receivables, together with the associated allowance, are written off when there is no realistic prospect of future recovery. Interest income continues to be recognized based in the original EIR. If, in a subsequent year, the amount of the estimated impairment loss decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date.

AFS Financial Assets Carried at Fair Values
For AFS financial assets, the Group assesses at each end of the reporting period whether there is objective evidence that an investment is impaired. Debt securities in this category are those that are intended to be held for an indefinite period of time and that may be sold in response to needs for liquidity or in response to changes in the market conditions.

Financial assets may be designated at initial recognition as AFS financial assets if they are purchased and held indefinitely, and may be sold in response to liquidity requirements or changes in market conditions.

AFS financial assets are included in current assets if it is expected to be realized or disposed of within twelve (12) months from the end of the reporting period. Otherwise, these are classified as noncurrent assets.

After initial recognition, AFS financial assets are subsequently measured at fair value with unrealized gains and losses recognized as other comprehensive income in the "Unrealized valuation gains (losses) on AFS financial assets" in the consolidated statement of changes in equity until the financial asset is derecognized, at which time the cumulative gain or loss is recognized in consolidated statement of income, or the investment is determined to be impaired, when the cumulative loss is reclassified from equity to the consolidated statement of income in finance costs.

Where the Group holds more than one investment in the same security, these are deemed to be disposed of on a first-in, first-out basis. Interest earned on holding AFS financial assets are reported as interest income using the EIR. Dividends earned on holding AFS financial assets are recognized in the consolidated statement of income when the right of payment has been established. The losses arising from impairment of such financial assets are recognized in the consolidated statement of income.

Future interest income continues to be accrued based on the reduced carrying amount and is accrued based on the rate of interest used to discount future cash flows for the purpose of measuring impairment loss. The interest income is recorded in the consolidated statement of income. If, in subsequent year, the fair value of a debt instrument increased and the increase can be objectively related to an event occurring after the impairment loss was recognized in the consolidated statement of income, the impairment loss is reversed through the consolidated statement of income.

If there is objective evidence that an impairment loss on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

Derecognition of Financial Instruments

Financial Assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired;
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) has transferred substantially all the risks and rewards of the asset; or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained all the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or has expired.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts of a financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed is recognized in the consolidated statement of income.

Offsetting of Financial Instruments
Financial assets and financial liabilities are only offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to set off the recognized amounts and the Group intends to either settle, on a net basis, or to realize the asset and settle the liabilities simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented at gross amounts in the consolidated statement of financial position.

Inventories
Inventories are valued at the lower of cost and net realizable value (NRV). Costs incurred in bringing each product to its present location are accounted for as follows:

- Finished goods - direct materials, labor, and proportion of manufacturing overhead based on normal operating capacity but excluding borrowing costs.

- Factory supplies and spare parts - purchase cost on a moving-average method;

The NRV of finished goods is the selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. NRV of factory supplies and spare parts is the current replacement cost. In determining NRV, the Group considers any adjustment necessary for obsolescence.

Real Estate Held for Sale and Development
Real estate held for sale and development is carried at the lower of cost and NRV. NRV is the selling price in the ordinary course of business less the costs of completion, marketing and distribution. Cost includes acquisition cost of the land plus development and improvement costs. Borrowing costs incurred on loans obtained to finance the improvements and developments of real estate held for sale and development are capitalized while development is in progress.

Other Current Assets
Other current assets consists creditable withholding taxes (CWTs), input value added tax (VAT), unclaimed claims for reserve fund and prepayments.

CWTs
CWTs represent taxes withheld by the Group's customer on sale of goods and services which are claimed against income tax due. The excess over tax payable is carried over in the succeeding period for the same purpose.

Input VAT
Input VAT represents VAT imposed on the Group by its suppliers for the purchase of domestic goods and/or services as required by Philippine taxation laws and regulations. Input VAT is presented as current asset.

Prepayments
Prepayments are expenses paid in advance and recorded as asset before they are utilized. Prepaid expenses are apportioned to expense over the period covered by the payment and charged to the appropriate expense accounts when incurred.

Investment in an Associate
The Group's investment in an associate is accounted for using the equity method. An associate is an entity in which the Group has significant influence.

Under the equity method, the investment in an associate is carried in the consolidated statement of financial position at cost plus post acquisition changes in the Group's share of net assets of the associate.

When there has been a change recognized directly in the equity of the associate, the Group recognizes its share of any changes and discloses this, when applicable, in the consolidated statement of changes in equity. Unrealized gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The Group's share of profit of an associate is shown on the face of the consolidated statement of income. This is the profit attributable to equity holders of the associate and, therefore, is profit after tax and non-controlling interests in the subsidiaries of the associate.

The financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognize an additional impairment loss on its investment in an associate. The Group determines at each reporting date whether there is any objective evidence that the investment in an associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associates and its carrying value and recognizes the amount in the "Equity in net income (loss) of an associate" in the consolidated statement of income.

Upon loss of significant influence over the associate, the Group measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognized in profit or loss.

In the Parent Company's separate financial statements, investment in an associate is accounted for at cost less impairment losses.

Investment in an associate pertains to the 20% percentage of ownership in investment in BIB Aurora Insurance Brokers, Inc. (BAIBI).

As discussed in Note 8, the SEC approved the debt to equity conversion of Cyber Bay resulting to a change in percentage ownership of POPI from 22.28% to 10.46%. As a result of the change in ownership interest and loss of significant influence, the investment in Cyber Bay has been classified as AFS financial assets starting November 13, 2012.

Investment Properties

The Group's investment properties include properties utilized in its mall operations, condominium unit, commercial building and certain land which are held for rentals while the rest of the land and plant facilities is held for capital appreciation.

Investment properties utilized in its mall operations are stated at their revalued amount as deemed cost as allowed under PFRS less accumulated depreciation and amortization and any accumulated impairment losses. Condominium unit and commercial building are stated at cost less accumulated depreciation and amortization and any accumulated impairment losses. Land is stated at cost less any impairment in value.

The initial cost of investment properties include the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met; and excludes the costs of day-to-day servicing of an investment property. Leasehold improvements under investment properties (including buildings and structures) on the leased land are carried at cost less accumulated amortization and any impairment in value.

Investment properties are derecognized when they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the consolidated statement of income in the period of derecognition.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

Leasehold improvements and investment properties are amortized on a straight-line basis over the estimated useful lives or the term of the lease, whichever is shorter.

The lease contract on a land where investment property is located is for twenty five (25) years, which is also the amortization period of the investment property. In December 2009, the lease contract on a land where the Group's primary investment property is located was renewed (see Note 27). As a result of the lease renewal, and the review of the estimated useful life and amortization period of the said investment property, management came to a conclusion that there has been a significant change in the expected pattern of economic benefits from the said property of the Group. As a result, the Group prospectively revised the remaining amortization period of this property from an average of twenty five (25) years (which is the shorter of the lease term and the estimated useful life) to thirty five (35) years effective September 5, 2014. The change has been accounted for as a change in accounting estimates.

<u>Property, Plant and Equipment</u>

Land and Improvements and Buildings and Improvements at Revalued Amount

Land and buildings together with their improvements stated at appraised values were determined by an independent firm of appraisers. The excess of appraised values over the acquisition costs of the properties is shown under the "Revaluation increment in property, plant and equipment" account in the consolidated statement of financial position and in the consolidated statement of changes in equity. An amount corresponding to the difference between the depreciation based on the revalued carrying amount of the asset and depreciation based on the original cost is transferred annually from "Revaluation increment on property, plant and equipment" to "Deficit" account in the consolidated statement of financial position.

Leasehold Improvements, Machinery and Equipment, Transportation Equipment, Furniture, Fixtures and Equipment , Condominium Units and Improvements, and Hotel Equipment at Cost

Property, plant and equipment are carried at cost, less accumulated depreciation, amortization and any impairment in value. The initial cost of property, plant and equipment consists of its purchase price, including import duties, taxes and any directly attributable costs of bringing the property, plant and equipment to its working condition and location for its intended use. Expenditures incurred after the property, plant and equipment have been put into operation, such as repairs and maintenance and overhaul costs, are normally charged to operations in the year in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefit expected to be obtained from the use of an item of property, plant and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property, plant and equipment.

Depreciation and amortization are calculated on a straight-line basis over the estimated useful life of the property, plant and equipment as follows:

	Useful life in years
Land and improvements	30
Buildings and improvements	30
Machinery and equipment	5 - 10
Transportation equipment	5
Furniture, fixtures and equipment	3 - 5
Condominium units and improvements	25
Hotel equipment	5

Leasehold improvements are amortized on a straight-line basis over three (3) to five (5) years or the term of the lease, whichever is shorter.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of income in the year the asset is derecognized.

The residual values, useful lives and depreciation and amortization methods are reviewed and adjusted if appropriate, at each end of the reporting period.

Fully depreciated assets are retained in the accounts until these are no longer in use. When assets are sold or retired, the cost and the related accumulated depreciation and amortization and any impairment in value are eliminated from the accounts and any gain or loss resulting from their disposal is included in the consolidated statement of income.

Software Costs

Acquired software license is capitalized on the basis of costs incurred to acquire and bring to use the specific software. Software license is amortized on a straight-line basis over its estimated useful life of three (3) to four (4) years. Costs associated with the development or maintenance of computer software programs are recognized as expense when incurred in the consolidated statement of income.

An item of software license is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset is included in the consolidated statement of income in the year the items is derecognized.

The Group’s capitalized software costs includes purchase price payments for new software and other directly related costs necessary to bring the asset to use.

Other Noncurrent Assets

Other noncurrent assets consist of advance rental, deferred acquisition cost, deferred reinsurance premiums, refundable deposits, deferred input VAT, spare parts and supplies, unclaimed claims reserve fund and other prepayments that will be consume after twelve (12) months after each end of the reporting period.

Deferred Acquisition Costs

Commission and other acquisition costs incurred during the financial reporting period that are related to securing new insurance contracts and/or renewing existing insurance contracts, but which relates to subsequent financial periods, are deferred to the extent that they are recoverable out of future revenue margins. All other acquisition costs are recognized as an expense when incurred.

Subsequent to initial recognition, these costs are amortized using the twenty-forth (24^{th}) method except for marine cargo where the deferred acquisition costs pertain to the commissions for the last two (2) months of the year. Amortization is charged to the consolidated statement of income. The unamortized acquisition costs are shown as deferred acquisition cost under “Other noncurrent assets”.

Impairment of Nonfinancial Assets

Inventories

The Group recognizes provision for inventory losses when the net realizable values of inventory items become lower than the costs due to obsolescence or other causes. Obsolescence is based on the physical and internal condition of inventory items. Obsolescence is also established when inventory items are no longer marketable. Obsolete goods, when identified, are written down to their net realizable values.

Investment in an Associate

The Group assesses at each end of the reporting period whether there is any indication that the investment in an associate is impaired. If this is the case, the Group calculates the amount of impairment as being the difference between the fair value of the investment and the acquisition cost and recognizes the amount in the consolidated statement of income.

An assessment is made at each end of the reporting period as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the investment’s recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the investment is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss in the consolidated statement of income.

Real Estate Held for Sale and Development, Investment Properties, Property, Plant and Equipment and Software Costs

The Group assesses at each end of the reporting period whether there is an indication that real estate held for sale and development, investment properties, property, plant and equipment and software costs may be impaired. If any such indication exists and where the carrying values exceed the estimated recoverable amounts, the assets or cash-generating units (CGU) are written down to their estimated recoverable amounts. The estimated recoverable amount of an asset is the greater of fair value less cost to sell and value in use. The fair value less cost to sell is the amount obtainable from the sale of an asset in an arm's-length transaction less the costs of disposal while value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For an asset that does not generate largely independent cash inflows, the estimated recoverable amount is determined for the CGU to which the asset belongs. Impairment losses of continuing operations are recognized in the consolidated statement of income in those expense categories consistent with the function of the impaired asset.

A previously recognized impairment loss is reversed by a credit to current operations to the extent that it does not restate the asset to a carrying amount in excess of what would have been determined (net of any accumulated depreciation and amortization) had no impairment loss been recognized for the asset in prior years.

Recovery of impairment losses recognized in prior years is recorded when there is an indication that the impairment losses recognized for the asset no longer exist or have decreased. The recovery is recorded in the consolidated statement of income. However, the increased carrying amount of an asset due to a recovery of an impairment loss is recognized to the extent it does not exceed the carrying amount that would have been determined had no impairment loss been recognized for that asset in prior years.

Nonfinancial Other Current and Noncurrent Assets
The Group provides allowance for impairment losses on nonfinancial other current and noncurrent assets when they can no longer be realized. The amounts and timing of recorded expenses for any period would differ if the Group made different judgments or utilized different estimates. An increase in allowance for impairment losses would increase recorded expenses and decrease other current and noncurrent assets.

<u>Product Classification</u>
Insurance contracts are defined as those containing significant insurance risk at the inception of the contract, or those where at the inception of the contract, there is a scenario with commercial substance where the level of insurance risk may be significant over time. The significance of insurance risk is dependent on both the probability of an insured event and the magnitude of its potential effect. As a general guideline, the Group defines significant insurance risk by comparing benefits paid with benefits payable if the insured event did not occur. Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its lifetime, even if the insurance risk reduces significantly during this period, unless all rights and obligations are extinguished or has expired. Investment contracts can however be reclassified as insurance contracts after inception if the insurance risk becomes significant.

Recognition and Measurement

a) Premium Revenue
   Premiums from short-duration insurance contracts are recognized as revenue over the period of the contracts using the 24th method, except for premiums arising from marine cargo where the provision for unearned premiums pertains to the premiums for the last two months of the year. The portion of the premiums written that relates to the unexpired periods of the policies at financial reporting dates is accounted for as "Reserve for unearned premiums" and shown as part of "Accounts payable and accrued expenses" in the Liabilities section of the consolidated

statement of financial position. The related reinsurance premiums ceded that pertain to the unexpired periods at financial reporting dates are accounted for as "Deferred reinsurance premiums" and shown under "Other noncurrent assets" in the Assets section of the consolidated statement of financial positions. The net changes in these accounts between financial reporting dates are charged to or credited against income for the period.

b) Insurance Contract Liabilities
Insurance contract liabilities are recognized when contracts are entered into and premiums are charged.

Provision for Unearned Premiums
The proportion of written premiums, gross of commissions payable to intermediaries, attributable to subsequent periods is deferred as provision for unearned premiums using the 24th method, except for the marine cargo's last two months of the year. The change in the provision for unearned premiums is taken to the consolidated statement of income in the order that revenue is recognized over the period of risk. Further provisions are made to cover claims under unexpired insurance contracts which may exceed the unearned premiums and the premiums due in respect of these contracts.

Claims Provision and Incurred but not Reported (IBNR) losses
Outstanding claims provision are based on the estimated ultimate cost of all claims incurred but not settled at the financial reporting date, whether reported or not, together with related claims handling costs and reduction for the expected value of salvage and other recoveries. Delays can be experienced in the notification and settlement of certain types of claims, therefore the ultimate cost of which cannot be known with certainty at the reporting date. The liability is not discounted for the time value of money and includes IBNR losses. No provision for equalization or catastrophic reserves is recognized. The liability is derecognized when the contract expires, is discharged or is cancelled.

Liability Adequacy Test
At each financial reporting date, liability adequacy tests are performed to ensure the adequacy of insurance contract liabilities. In performing the test, current best estimates of future cash flows, claims handling and policy administration expenses are used. Any inadequacy is immediately charged to the consolidated statement of income by establishing an unexpired risk provision for losses arising from the liability adequacy tests.

c) Reinsurance Assets
The Group cedes insurance risk in the normal course of business. Reinsurance assets represent balances due from reinsurance companies for ceded insurance liabilities. Recoverable amounts are estimated in a manner consistent with the outstanding claims provisions and are in accordance with the reinsurance contract.

An impairment review is performed on all reinsurance assets when an indication of impairment arises during the financial reporting period. Impairment occurs when objective evidence exists that the Group may not recover outstanding amounts under the terms of the contract and when the impact on the amounts that the Group will receive from the reinsurer can be measured reliably. The impairment loss is recorded in the consolidated statement of income.

Ceded reinsurance arrangements do not relieve the Group from its obligations to policyholders.

The Group also assumes reinsurance risk in the normal course of business for insurance contracts when applicable. Premiums and claims on assumed reinsurance are recognized as income and expense in the same manner as they would be if the reinsurance were considered direct business, taking into account the product classification of the reinsured business.

Rental and Other Deposits
Customer rental and other deposits represent payment from tenants on leased properties which are refundable at the end of the lease contract.

Subscriptions Payable
Subscriptions payable pertains to the Group's unpaid subscription of shares of stock of other entities. These are recognized and carried in the books at the original subscription price in exchange of which, the shares of stock will be issued.

Capital Stock
Common shares are classified as equity.

Incremental costs directly attributable to the issuance of new shares are shown in equity as a deduction, net of tax, from the proceeds. The excess of proceeds from issuance of shares over the par value of shares are credited to "Additional paid-in capital".

Other Comprehensive Income (Loss)
Other comprehensive income (loss) comprises items of income and expense (including items previously presented under the consolidated statement of changes in equity) that are not recognized in the consolidated statement of income for the year in accordance with PFRS.

Revenue Recognition
Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the amount of revenue can be measured reliably. The Group assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent. The Group has concluded that it is acting as principal in all of its revenue arrangements. The specific recognition criteria described below must also be met before revenue is recognized:

Rent and Other Charges
Rental income arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms and included in revenue due to its operating nature. Other charges pertain to rebilled utility charges to tenants in relation to the operating lease on properties.

Insurance Premiums and Commissions - net
Premiums from short-duration insurance contracts are recognized as revenue over the period of the contracts using the 24th method, except for premiums arising from marine cargo where the provision for unearned premiums pertains to the premiums for the last two months of the year. The portion of the premiums written that relates to the unexpired periods of the policies at financial reporting dates is accounted for as "Reserve for unearned premiums" and shown as part of "Insurance contract liabilities" in the Liabilities section of the consolidated statement of financial position. The related reinsurance premiums ceded that pertain to the unexpired periods at financial reporting dates are accounted for as "Deferred reinsurance premiums" and shown under "Reinsurance assets" in the Assets section of the consolidated statement of financial positions. The net changes in these accounts between financial reporting dates are charged to or credited against income for the period.

Reinsurance commissions are recognized as revenue over the period of the contracts using the 24th method, except for marine cargo where the deferred reinsurance commission pertains to the premiums for the last two months of the year. The portion of the commissions that relates to the unexpired periods of the policies at the financial reporting date is accounted for as "Deferred reinsurance commissions" in the Liabilities section of the consolidated statement of financial position.

Gain on Sale of AFS Financial Assets
Gain on sale of AFS financial assets is recognized when the Group sold its AFS financial assets higher than its fair market value at the time of sale.

Merchandise Sales and Sale of Assets
Revenue from sale of merchandise and assets are recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods.

Interest Income
For all financial instruments measured at amortized cost and interest bearing financial assets classified as AFS financial assets, interest income or expense is recorded using the EIR, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset.

Service Fees
Service fees are recognized based on agreed rates upon completion of the service.

Dividend Income
Dividend income is recognized when the Group's right to receive the payment is established.

<u>Cost and Expenses</u>
Costs and expenses are decreases in economic benefits during the accounting period in the form of outflows or incurrence of liabilities that result in decrease in equity. Expenses are recognized in the consolidated statement of income in the period these are incurred. Cost and expenses are generally recognized when services or goods used or the expense arises in the appropriate financial reporting period.

Operating Expenses
Operating expenses consist of all expenses associated with the development and execution of marketing and promotional activities and expenses incurred in the direction and general administration of day-to-day operations of the Group. These are generally recognized when the service is incurred or the expense arises.

Cost of Goods Sold and Services
Cost of sales and services are incurred in the normal course of the business and are recognized when incurred. These comprise cost of goods sold, services, merchandise and handling services.

<u>Earnings Per Share</u>
Basic earnings per share amounts are calculated by dividing net profit for the year attributable to ordinary equity holders of the Parent Company by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the net profit attributable to ordinary equity holders of the Parent Company (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

Income Taxes

Current Income Tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The income tax rates and income tax laws used to compute the amount are those that are enacted or substantively enacted as at the end of the reporting period.

Current income tax relating to items recognized directly in equity is recognized in equity and not in the profit or loss in the consolidated statement of income. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Income Tax

Deferred income tax is provided using the balance sheet liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the end of the reporting period.

Deferred income tax liabilities are recognized for all taxable temporary differences, except:

- when the deferred income tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets are recognized for all deductible temporary differences, carry-forward benefits of unused net operating loss carryover (NOLCO) and unused tax credits from excess minimum corporate income tax (MCIT), to the extent that it is probable that sufficient future taxable profits will be available against which the deductible temporary differences, and the carry forward of unused NOLCO and MCIT can be utilized, except:

- when the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred income tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and sufficient future taxable profits will be available against which the temporary differences can be utilized.

The carrying amount of deferred income tax assets is reviewed at each end of the reporting period and reduced to the extent that it is no longer probable that sufficient future taxable profits will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred income tax assets are reassessed at each end of the reporting period and are recognized to the extent that it has become probable that sufficient future taxable profits will allow the deferred income tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the income tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on income tax rates (and income tax laws) that have been enacted or substantively enacted at each end of the reporting period.

Deferred income tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred income tax items are recognized in correlation to the underlying transaction either in the consolidated statement of comprehensive income or directly in equity.

Deferred income tax assets and deferred income tax liabilities are offset if, and only if, a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend to either settle current tax liabilities and assets on a net basis, or to realize the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax assets or liabilities are expected to be settled or recovered. Subsidiaries operating in the Philippines file income tax returns on an individual basis. Thus, the deferred tax assets and deferred tax liabilities are offset on a per entity basis.

Retirement Benefits Costs
The Group has a funded, non-contributory defined benefit retirement plan.

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method. This method reflects service rendered by employees to the date of valuation and incorporates assumptions concerning the employees' projected salaries.

Defined benefit costs comprise the following:

- Service cost
- Net interest on the net defined benefit liability or asset
- Remeasurements of net defined benefit liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as "Retirement benefits costs" under personnel costs in the consolidated statement of income. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as "Interest income (expense)" in the consolidated statement of income.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to the consolidated statement of comprehensive income in subsequent periods. Remeasurements recognized in OCI after the initial adoption of the Revised PAS 19 are retained in OCI which is included in "Loss on remeasurement of retirement benefits pla" under equity.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations). If the fair value of the plan assets is higher than the present value of the defined benefit obligation, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

Employee Leave Entitlement
Employee entitlements to annual leave are recognized as a liability when they are accrued to the employees. The undiscounted liability for leave expected to be settled wholly before twelve (12) months after the end of the reporting period is recognized for services rendered by employees up to the end of the reporting period.

<u>Leases</u>
Determination of Whether an Arrangement Contains a Lease
The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at inception date, whether fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset, even if that right is not explicitly specified in an arrangement. A reassessment is made after the inception of the lease only if one of the following applies:

a. There is a change in contractual terms, other than a renewal or extension of the arrangement;
b. A renewal option is exercised or extension granted, unless the term of the renewal or extension was initially included in the lease term;
c. There is a change in the determination of whether fulfillment is dependent on a specified asset; or
d. There is a substantial change to the asset.

Where a reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances give rise to the reassessment for scenarios (a), (c) or (d) and at the date of renewal or extension period for scenario (b).

Operating Lease Commitments - Group as a Lessor
Leases in which the Group does not transfer substantially all the risks and benefits of ownership of an asset are classified as operating leases. Rent income from operating leases are recognized as income on a straight-line basis over the lease term or based on the terms of the lease, as applicable. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Operating Lease Commitments - Group as a Lessee
Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Lease payments under non-cancellable operating leases are recognized as an expense in the consolidated statement of income on a straight-line basis over the lease term.

Foreign Currency Translation
Transactions in foreign currencies are initially recorded in Philippine peso based on the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency exchange rate at the end of the reporting period. All differences arising on settlement or translation of monetary items are taken to the consolidated statement of income. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on retranslation of non-monetary items is treated in line with the recognition of gain or loss on change in fair value of the item.

Claims
The liabilities for unpaid claim costs (including incurred but not reported losses) and claim adjustment expenses relating to insurance contracts are accrued when insured events occur. The liabilities for unpaid claims are based on the estimated ultimate cost of settling the claims. The method of determining such estimates and establishing reserves is continually reviewed and updated. Changes in estimates of claim costs resulting from the continuous review process and differences between estimates and payments for claims are recognized as income or expense for the period in which the estimates are changed or payments are made. Estimated recoveries on settled and unsettled claims are evaluated in terms of the estimated realizable values of the salvaged recoverables and deducted from the liability for unpaid claims. The unpaid claim costs are accounted as Claims payable under “Accounts payable and accrued expenses” account in the consolidated statement of financial position.

Provisions
Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the consolidated statement of income, net of any reimbursement.

Contingencies
Contingent liabilities are not recognized in the consolidated financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is

remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated financial statements when an inflow of economic benefit is probable.

Segment Reporting
The Group's operating businesses are recognized and managed according to the nature of the products or services offered, with each segment representing a strategic business unit that serves different markets.

Segment revenue, expenses and performance include transfers between business segments. The transfers are accounted for at competitive market prices charged to unaffiliated customers for similar products. Such transfers are eliminated in consolidation.

Events After the End of the Reporting Period
Post year-end events that provide additional information about the Group's financial position at the end of the reporting period (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the notes to consolidated financial statements when material.

3. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements in accordance with PFRS requires the Group to make judgments and estimates that affect the reported amounts of assets, liabilities, revenues and expenses and disclosure of contingent assets and contingent liabilities, at the end of the reporting period. Future events may occur which will cause the assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the consolidated financial statements as they become reasonably determinable.

Judgments, estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcome can differ from these estimates.

Judgments
In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements:

Determining Functional Currency
Based on the economic substance of underlying circumstances relevant to the Group, the functional currency of the Group has been determined to be the Philippine peso. The Philippine peso is the currency of the primary economic environment in which the Group operates and it is the currency that mainly influences the underlying transactions, events and conditions relevant to the Group.

Determining Classification of Financial Instruments
The Group classifies a financial instrument, or its component parts, on initial recognition as a financial asset, a financial liability or an equity instrument in accordance with the substance of the contractual agreement and definitions of a financial asset, a financial liability or an equity instrument. The substance of a financial instrument, rather than its legal form, governs its classification in the consolidated statement of financial position.

Determining Loss of Significant Influence
The Group assesses whether lack of significant influence over an associate is evident. Aside from the presumption that holding of less than 20.00% of the voting power does not give rise to significant influence, the management also considers other circumstances that may lead them to believe that the Group cannot exercise significant influence over its associate. Such circumstances include inability to obtain timely financial information or cannot obtain more information than investors with significant influence, the Group's views and economic decisions are not considered in the operations of the investee, and other investors are opposing the Group's attempt to exercise significant influence. In 2013, the ownership interest of the Group over its investment in Cyber Bay has decreased from 22.28% to 10.46% (see Note 8) and management assessed that the Group has lost its significant influence over its investment in Cyber Bay. The Group therefore reclassified its investment in Cyber Bay as AFS financial assets from investment in an associate.

Determining Classification of Investment Properties
The Group classifies its buildings and improvements and land and improvements either as investment property or owner-occupied property based on its current intentions where it will be used. When buildings and improvements as well as land and improvements are held for capital appreciation or when management is still undecided as to its future use, it is classified as investment property. Buildings and improvements and land and improvements which are held for rent are classified as investment properties.

Assessment Whether an Agreement is a Finance or Operating Lease
Management assesses at the inception of the lease whether an arrangement is a finance lease or operating lease based on who bears substantially all the risk and benefits incidental to the ownership of the leased item. Based on the management's assessment, the risk and rewards of owning the items leased by the Group are retained by the lessor and therefore accounts for such lease as operating lease.

Assessing Operating Lease Commitments - Group as Lessor
The Group has entered into commercial property leases on its investment properties portfolio. The Group has determined that it retains all the significant risks and rewards of ownership of these properties which are leased out under operating lease arrangements.

Assessing Operating Lease Commitments - Group as Lessee
The Group has entered into a lease agreement for the corporate office space and a subsidiary's mall operations. The Group has determined that it does not obtain all the significant risks and rewards of ownership of the assets under operating lease arrangements.

Estimates and Assumptions
The key estimates and assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes in circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Estimating Casualty Loss
As a result of the fire which occurred on September 4, 2012, the Group, in its own initiative, made an assessment of the extent of the damages sustained on its individual assets, including receivables, investment properties and property, plant and equipment. The reassessment was

conducted with the joint coordination of the Group's engineering and operations group and other technical consultants, taking into consideration various factors such as assets' net book values, restoration costs and usability as of the reassessment date. Judgment by management was particularly employed when deciding whether an asset should be provided with full or partial allowance for losses.

These property losses, with a net book value of ₱63.25 million are recorded as "Casualty loss" in the 2013 consolidated statement of income.

Estimating Recovery from Insurance
Management estimates that the recorded amount of the recovery from insurance is virtually certain after an exhaustive review of its existing insurance coverage against the casualty loss incurred and the discussions with and inspections conducted by the insurance company, adjusters, and technical consultants. In 2015, 2014 and 2013, the Group recorded recovery from insurance amounting to nil, ₱269.28 million and ₱78.09 million, respectively (see Note 1).

Estimating Allowance for Impairment Losses on Receivables and Amounts Owed by Related Parties
The Group reviews its receivables and amounts owed by related parties at each end of the reporting period to assess whether a provision for impairment should be recorded in the consolidated statement of income. In particular, judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of allowance required. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the allowance.

For the receivables, the Group evaluates specific accounts where the Group has information that certain customers or third parties are unable to meet their financial obligations and considers cumulative assessment for the risk of the collectability of past due accounts. Facts, such as the Group's length of relationship with the customers or other parties and the customers' or other parties' current credit status, are considered to ascertain the amount of allowance that will be provided. The allowances are evaluated and adjusted as additional information is received.

For the amounts owed by related parties, the Group uses judgment, based on the best available facts and circumstances, including but not limited to, assessment of the related parties' operating activities (active or dormant), business viability and overall capacity to pay, in providing allowance against the recorded receivable amounts.

Provision for impairment losses on receivables amounted to ₱2.46 million, ₱0.73 million and ₱20.94 million in 2015, 2014 and 2013, respectively. Recovery on impairment losses on receivables amounted to ₱8.01 million, ₱1.29 million and ₱0.40 million in 2015, 2014 and 2013, respectively. The Group wrote-off allowance for impairment losses on receivables amounted to ₱1.32 million, ₱6.97 million and ₱0.08 million in 2015, 2014 and 2013, respectively. The carrying values of the receivables amounted to ₱496.12 million and ₱603.14 million as at June 30, 2015 and 2014, respectively, net of allowance for impairment losses amounting to ₱301.89 million and ₱308.76 million as at June 30, 2015 and 2014, respectively (see Note 5).

Provision for impairment loss on amounts owed by related parties amounted to ₱0.02 million in 2015 and nil 2014 and 2013. Reversal of impairment losses on amounts owed by related parties amounted to nil in 2015 and 2014 and ₱62.46 million 2013. The Group wrote-off allowance for impairment losses on amounts owed by related parties amounted to nil in 2015 and 2014 and ₱0.26 million in 2013. The carrying values of amounts owed by related parties amounted to

₱0.01 million and ₱0.02 million as at June 30, 2015 and 2014, respectively, net of allowance for impairment losses amounting to ₱1.63 million and ₱1.61 million as at June 30, 2015 and 2014, respectively (see Note 18).

Estimating Allowance for Inventory Losses
The Group maintains an allowance for inventory losses. The level of this allowance is evaluated by management on the basis of factors that affect the recoverability of the inventory. These factors include, but are not limited to, the physical condition and location of inventories on hand, the fluctuations of price or cost directly relating to events occurring after the end of the period to the extent that such events confirm conditions existing at the end of the period, and the purpose for which the inventory item is held.

Provision for inventory losses amounted to nil, ₱1.81 million and ₱70.95 million in 2015, 2014 and 2013, respectively. Reversal of allowance for impairment on inventory losses amounted to ₱8.97 million, ₱4.59 million and nil in 2015, 2014 and 2013, respectively. The Group wrote-off allowance for impairment losses on inventories amounted to ₱1.43 million, ₱13.11 million and ₱6.59 million in 2015, 2014 and 2013, respectively. The carrying values of inventories amounted to ₱12.01 million and ₱18.47 million as at June 30, 2015 and 2014, respectively, net of allowance for inventory losses amounting to ₱71.61 million and ₱82.02 million as at June 30, 2015 and 2014, respectively (see Note 6).

Estimating Allowance for Impairment Losses on Real Estate Held for Sale and Development
The Group maintains an allowance for impairment losses on real estate held for sale and development. The level of this allowance is evaluated by management on the basis of factors that affect the recoverability of the real estate held for sale and development. These factors include, but are not limited to, the physical condition and location of real estate held for sale and development, the fluctuations of price or cost directly relating to events occurring after the end of the period to the extent that such events confirm conditions existing at the end of the period, and the purpose for which the real estate held for sale and development item is held.

There was no impairment losses on real estate held for sale and development recognized in 2015, 2014 and 2013. The carrying values of real estate held for sale and development amounted to ₱430.10 million and ₱429.51 million as at June 30, 2015 and 2014, respectively (see Note 7).

Estimating Allowance for Impairment Losses of AFS Financial Assets and Financial Assets at FVPL
The Group recognizes impairment losses on AFS financial assets and financial assets at FVPL when there has been a significant or prolonged decline in the fair value of such investments below its cost or where other objective evidence of impairment exists. The determination of what is ‘significant’ or ‘prolonged’ requires judgment. For equity instruments, when determining whether the decline in value is significant, the Group considers historical volatility of share price (i.e., the higher the historical volatility, the greater the decline in fair value before it is likely to be regarded as significant) and the period of time over which the share price has been depressed (i.e., a sudden decline is less significant than a sustained fall of the same magnitude over a longer period). For debt instruments, impairment is assessed based on the same criteria as financial assets carried at amortized cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortized cost and the current fair value, less any impairment loss on the AFS financial assets previously recognized in the consolidated statement of income.

Provision for impairment losses on AFS financial assets amounted to ₱241.19 million, ₱2.60 million and ₱291.50 million in 2015, 2014 and 2013, respectively. The fair values of AFS financial assets amounted to ₱1,507.41 million and ₱1,643.90 million as at June 30, 2015 and 2014, respectively, net of allowance for impairment losses amounting to ₱535.29 million and ₱294.10 million as at June 30, 2015 and 2014, respectively (see Note 8).

There was no provision for impairment losses on financial assets at FVPL recognized in 2015 and 2014. The fair values of the financial assets at FVPL amounted to ₱27.99 million and nil, respectively, as at June 30, 2015 and 2014 (see Note 9).

Estimating Allowance for Impairment Losses on Investment in an Associate and Investment Properties

PFRS requires that an impairment review be performed when certain impairment indicators are present. Determining the value of investment in an associate and investment properties which requires the determination of future cash flows expected to be generated from the continued use and ultimate disposition of such assets requires the Group to make estimates and assumptions that can materially affect its consolidated financial statements. Future events could cause the Group to conclude that this asset may not be recoverable. Any resulting impairment loss could have a material adverse impact on financial condition and results of operations of the Group.

There was no provision for impairment losses on investment in an associate recognized in 2015, 2014 and 2013. The carrying values of the investment in an associate amounted to ₱2.57 million and ₱2.56 million as at June 30, 2015 and 2014, respectively (see Note 11).

Provision for impairment losses on investment properties amounted to nil in 2015 and 2014 and ₱6.62 million in 2013. In 2013, the Group recorded the provision for impairment loss amounting to ₱6.62 million as part of casualty loss in relation to the fire. The carrying value of investment properties amounted to ₱1,329.02 million and ₱737.49 million as at June 30, 2015 and 2014, respectively, net of allowance for impairment losses amounting to ₱12.83 million (see Note 12).

Estimating Useful Lives of Investment Properties, Property, Plant and Equipment and Software Costs

The estimated useful lives used as bases for depreciating and amortizing the Group’s investment properties, property, plant and equipment and software costs were determined on the basis of management’s assessment of the period within which the benefits of these asset items are expected to be realized taking into account actual historical information on the use of such assets as well as industry standards and averages applicable to the Group’s assets. The Group estimates the useful lives of its investment properties, property, plant and equipment and software costs based on the period over which the assets are expected to be available for use. The estimated useful lives of investment properties, property, plant and equipment and software costs are reviewed, at least, annually and are updated if expectations differ from previous estimates due to physical wear and tear and technical or commercial obsolescence on the use of these assets. It is possible that future results of operations could be materially affected by changes in these estimates brought about by changes in the factors mentioned above. A reduction in the estimated useful lives of these assets increases depreciation and amortization and decrease in the corresponding investment properties, property, plant and equipment and software costs.

There were no changes in the estimated useful lives of investment properties. The carrying values of investment properties amounted to ₱1,329.02 million and ₱737.49 million as at June 30, 2015 and 2014, respectively, net of accumulated depreciation and amortization amounting to ₱2.04 million and ₱1.56 million as at June 30, 2015 and 2014, respectively, net of allowance for impairment losses on investment properties amounting to ₱12.83 million (see Note 12).

There were no changes in the estimated useful lives of property and equipment. The carrying values of property, plant and equipment amounted to ₱46.33 million and ₱53.28 million as at June 30, 2015 and 2014, respectively, net of accumulated depreciation and amortization amounting to ₱2.21 million and ₱2.19 million as at June 30, 2015 and 2014, respectively (see Note 13).

There were no changes in the estimated useful lives of software costs. The carrying values of software costs amounted to ₱8.80 million and ₱8.96 million as at June 30, 2015 and 2014, respectively, net of accumulated amortization amounting to ₱27.14 million and ₱23.18 million as at June 30, 2015 and 2014, respectively (see Note 14).

Estimating Allowance for Impairment Losses of Property, Plant and Equipment, and Software Costs

The Group assesses impairment of property, plant and equipment, and software costs whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the Group considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- significant negative industry or economic trends.

In determining the present value of estimated future cash flows expected to be generated from the continued use of the assets, the Group is required to make estimates and assumptions that can materially affect the consolidated financial statements.

These assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss would be recognized whenever evidence exists that the carrying value is not recoverable. For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows.

An impairment loss is recognized and charged to earnings if the discounted expected future cash flows are less than the carrying amount. Fair value is estimated by discounting the expected future cash flows using a discount factor that reflects the risk-free rate of interest for a term consistent with the period of expected cash flows.

The carrying values of property, plant and equipment amounted to ₱46.33 million and ₱53.28 million as at June 30, 2015 and 2014, respectively, net of accumulated depreciation and amortization amounting to ₱2.21 million and ₱2.19 million as at June 30, 2015 and 2014, respectively (see Note 13).

The carrying values of software costs amounted to ₱8.80 million and ₱8.96 million as at June 30, 2015 and 2014, respectively, net of accumulated amortization amounting to ₱27.14 million and ₱23.18 million as at June 30, 2015 and 2014, respectively (see Note 14).

Estimating Allowance for Impairment Losses on Nonfinancial Other Current and Noncurrent Assets
The Group provides allowance for losses on nonfinancial other current and noncurrent assets whenever they can no longer be realized. The amounts and timing of recorded expenses for any period would differ if the Group made different judgments or utilized different estimates. An increase in allowance for losses would increase recorded expenses and decrease nonfinancial other current and noncurrent assets.

Provisions for impairment losses on nonfinancial other current assets amounted to ₱0.08 million, ₱0.06 million and ₱0.19 million in 2015, 2014 and 2013, respectively. The Group wrote-off allowance for impairment losses on nonfinancial other current assets amounted to nil, ₱0.21 million and ₱3.46 million in 2015, 2014 and 2013, respectively. The carrying values of nonfinancial other current assets amounted to ₱244.73 million and ₱232.12 million, respectively, as at June 30, 2015 and 2014, net of allowance for impairment losses amounting to ₱2.90 million and ₱2.82 million as at June 30, 2015 and 2014, respectively (see Note 10).

There was no provision for impairment losses on nonfinancial other noncurrent assets recognized in 2015, 2014 and 2013. As at June 30, 2015 and 2014, the carrying values of nonfinancial other noncurrent assets amounted to ₱184.59 million and ₱78.89 million, respectively (see Note 15).

Claims Liability Arising from Insurance Contracts
Estimates have to be made both for the expected ultimate cost of claims reported at the financial reporting period and for the expected ultimate cost of the IBNR claims as at financial reporting period. It can take a significant period of time before the ultimate claim costs can be established with certainty. The primary technique adopted by management in estimating the cost of notified and IBNR claims is that of using past claims settlement trends to predict future claims settlement trends. At each financial reporting period, prior year claims estimates are assessed for adequacy and changes made are charged to current year provision.

The carrying values of claims payable amounted to ₱230.61 million and ₱266.95 million as at June 30, 2015 and 2014, respectively (see Note 16).

Determining Retirement Benefits Liability
The cost of defined retirement obligation as well as the present value of the defined benefit obligation is determined using actuarial valuations. The actuarial valuation involves making various assumptions. These include the determination of the discount rates, future salary increases, mortality rates and future retirement increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, defined benefit obligation are highly sensitive to changes in these assumptions. All assumptions are reviewed at each end of the reporting period.

Retirement benefit costs amounted to ₱22.77 million, ₱25.34 million and ₱21.35 million in 2015, 2014 and 2013, respectively. As at June 30, 2015 and 2014, the retirement benefits liability of the Group amounted to ₱96.98 million and ₱99.19 million, respectively (see Note 23).

In determining the appropriate discount rate, management considers the interest rates of government bonds that are denominated in the currency in which the benefits will be paid, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation. Further details about the assumptions used are provided in Note 23.

Assessing Realizability of Deferred Income Tax Assets
The Group reviews the carrying amounts of deferred income tax assets at each end of the reporting period and reduces it to the extent that it is no longer probable that sufficient future taxable profits will be available to allow all or part of the deferred income tax assets to be utilized. Significant judgment is required to determine the amount of deferred income tax assets that can be recognized based upon the likely timing and level of future taxable income together with future planning strategies. However, there is no assurance that the Group will generate sufficient future taxable profits to allow all or part of its deferred income tax assets to be utilized.

Deferred income tax assets recognized in the books amounted to ₱69.65 million and ₱62.62 million as at June 30, 2015 and 2014, respectively (see Note 24).

Temporary differences for which no deferred income tax assets were recognized as the management has assessed that it is not probable that sufficient future taxable income will be available for which the benefit of the deferred income tax assets can be utilized amounted to ₱4,629.23 million and ₱1,306.64 million as at June 30, 2015 and 2014, respectively (see Note 24).

Estimating Contingencies
The Group is currently involved in various legal proceedings. The estimate of the probable costs for the resolution of these claims has been developed in consultation with inside and outside legal counsel handling the defense in these matters and is based upon the analysis of potential results. It is possible, however, that future results of operations could be materially affected by changes in estimates or in the effectiveness of the strategies relating to these proceedings.

Estimating Fair Values of Financial Instruments
Where the fair values of financial assets and financial liabilities recorded in the consolidated statement of financial position cannot be derived from active markets, they are determined using valuation techniques including the discounted cash flows model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Any change in the fair value of these financial instruments would directly affect the consolidated statement of income and consolidated statement of changes in equity.

Fair values of financial assets as at June 30, 2015 and 2014 amounted to ₱3,020.66 million and ₱3,243.29 million, respectively, while the fair values of financial liabilities as at June 30, 2015 and 2014 amounted to ₱1,362.64 million and ₱1,358.09 million, respectively (see Note 31).

4. Cash and Cash Equivalents

	2015	2014
	(In Thousands)	
Cash on hand and in banks	**₱56,304**	₱91,528
Short-term investments	**95,459**	280,006
	₱151,763	₱371,534

Cash in banks earn interest at the respective bank deposit rates. Short-term investments are made for varying periods of up to three (3) months depending on the immediate cash requirements of the Group and earn interest at the respective short-term investment rates.

Interest earned from cash in banks amounted to ₱0.26 million, ₱0.98 million and ₱0.32 million in 2015, 2014 and 2013, respectively. Interest earned from short-term investments amounted to ₱1.42 million, ₱4.77 million and ₱5.54 million in 2015, 2014 and 2013, respectively (see Note 22).

5. **Receivables**

	798,001	911,899
Less allowance for impairment losses	**301,885**	308,758
	₱496,116	₱603,141

Trade debtors are both interest and non-interest bearing and are generally collectible on thirty (30) days' term. The interest rates used ranges from 5% to 10% per annum.

Insurance receivables consist of premiums receivable, due from ceding companies, reinsurance recoverable on paid and unpaid losses - facultative, funds held by ceding companies and reinsurance accounts receivables and are generally on (sixty) 60 to (one hundred eighty) 180 days' term.

Other receivables include noninterest-bearing receivables of OLI from Cosco Land Corporation (CLC) which are due and demandable amounting to ₱160.45 million and ₱167.81 million as at June 30, 2015 and 2014, respectively. These receivables are collateralized by the shares of stock of Cyber Bay owned by CLC. The receivables from CLC are fully provided with allowance.

In 2014, the Parent Company has written-off portion of its advances to service providers and other receivables amounting to ₱6.97 million. While in 2015, LCI and OMI has written-off portion of its trade receivables amounting to ₱0.84 million and ₱0.48 million, respectively

Allowance for impairment losses pertains to specific and collective assessments. The movements of allowance for impairment losses on receivables are as follows:

AFS financial assets in quoted shares of stock are carried at fair value with cumulative changes in fair values presented as a separate account in equity. Meanwhile, unquoted debt and nonlisted equity AFS financial assets are based on discounted future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities.

On November 13, 2012, the SEC approved the conversion of debt to equity of Cyber Bay resulting to a change in percentage ownership of POPI from 22.28% to 10.46%. The management assessed that the Group ceased to have significant influence over Cyber Bay. As a result of the reduction in the ownership interest and loss of significant influence, the investment in Cyber Bay was reclassified to AFS financial asset starting November 13, 2012. The Group recognized a gain on re-measurement of ₱594.11 million from the reclassification of Cyber Bay investment.

Certain AFS financial assets are reserved investments in accordance with the provisions of the Insurance Code as security for the benefit of policy holders and creditors of the FPIC.

Movements in the allowance for impairment losses are as follows:

Investment properties of TPI substantially represent leasehold improvements on the land leased from PNR which are utilized in TPI's office space, mall operations and held for rentals. Upon adoption of PAS 40, *Investment Property*, upon its transition in 2005, TPI chose the cost model and continues to carry these investment properties at deemed cost using their revalued amount as allowed under PFRS.

TPI's investment properties were valued by independent professionally qualified appraisers. Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The appraised property consists of land, other land improvements, and building, machinery and equipment, located along Claro M. Recto Avenue, within Tondo Manila. The hierarchy in which the fair value measurement in its entirety is recognized is at Level 2.

a. Based on the lease contract, TPI leases a land consisting of sixty nine (69) lots, containing an aggregate area of 227,773 square meters.

   The value of the land was estimated using the Sales Comparison Approach. This is a comparative approach that considers the sale of similar or substitute properties and related market data and establishes a value estimate by processes involving comparison. Listings and offerings may also be considered.

b. The method used to determine the value of other land improvements and building, machinery and equipment is the Sales Comparison Approach. This is a comparative approach to the value of the property or another asset that considers as a substitute for the purchase of a given property, the possibility of constructing another property that is a replica of, or equivalent to the original or one that could furnish equal utility with no undue cost resulting from delay. It is based on the reproduction or replacement cost of the subject property or asset, less total (accrued) depreciation.

LCI has historically classified land and improvements and buildings and improvements at revalued amounts as property, plant and equipment. On July 1, 2014, LCI transferred its land and improvements and buildings and improvements at revalued amounts to investment property valued at cost. The transfer was made in accordance with PAS 40*, Investment Property* since the properties were held by the Company to earn rentals or for capital appreciation or both, rather than for use in the production or supply of goods or services or for administrative purposes or sale in the ordinary course of business.

TPI and LCI has assessed that the highest and best use for its investment properties held for lease is its current use.

Movement of revaluation increment are as follows:

	2015	2014

Based on the latest appraisal reports, as determined by an independent firm of appraisers, the appraised values of the TPI's and LCI's investment properties amounted to ₱5.08 billion and ₱4.38 billion as at June 30, 2015 and 2014, respectively/.

In accordance with the general requirement under PFRS 1, the Group closed out the "Revaluation Reserve" on investment properties account to retained earnings which pertains to the remaining balance of the deemed cost adjustment on investment properties account which arose when the Group transitioned to PFRS in 2005.

On June 30, 2015 and 2014, the net book values of these properties follow:

	2015	2014

As discussed in Note 1, certain investment properties were damaged by the fire which occurred on September 4, 2012. After the assessment on the extent of the damage on the individual assets by the Company's engineering and operations group, and together with third party technical consultants, investment properties that were completely destroyed were written off and those that were partially damaged were impaired. These property losses are recorded as "Casualty loss" in the 2013 consolidated statements of income.

In 2014, the Company written-off the remaining carrying value of Boni Plaza amounting to ₱0.34 million and the allowance for impairment loss recognized in 2013 amounting to ₱0.34 million as the demolition of CB1 affected the operations of Boni Plaza. The property losses on the remaining carrying value of Boni Plaza are recorded as "Loss on write-off on investment properties" in the consolidated statements of income.

Certain items of property, plant and equipment identified as idle and included under machinery and equipment were written down to their estimated recoverable amounts.

Gain on sale of property, plant and equipment was recognized in 2015 and 2014 and 2013 amounting to ₱15.35 million, ₱0.20 million and ₱1.21 million respectively.

The fair value of land and improvements and buildings and improvements, which has been determined based on the latest valuations performed by Asian Appraisal Company, Inc. (Asian Appraisal) dated July 23, 2013, exceeds its carrying cost. Asian Appraisal is an industry specialist in valuing these types of properties. Revaluation increment in properties amounted to ₱244.62 million and ₱252.23 million in 2015 and 2014, respectively.

In 2015, LCI transferred its land and improvements and buildings and improvements at revalued amounts from property, plant and equipment to investment property valued at cost to reflect the change in use of the properties on July 1, 2014 (see Note 12).

Movement of revaluation increment are as follows:

18. Related Party Transactions

Related party relationship exists when one party has the ability to control, directly or indirectly through one or more intermediaries, the other party or exercise significant influence over the other party in making financial and operating decisions. Such relationship also exists between and/or among entities, which are under common control with the reporting enterprises and its key management personnel, directors or its stockholders. In considering each related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

The Parent Company and its subsidiaries, in their normal course of business, have entered into transactions with related parties principally consisting of noninterest-bearing advances with no fixed repayment terms and are due and demandable.

Account balances with related parties, other than intra-group balances which are eliminated in consolidation, are as follows:

Balances at end of year	**₱1,625**	₱1,610	₱1,610

This assessment is undertaken at each financial year-end by examining the financial position of the related parties and the market in which the related parties operate.

Significant transactions entered into among subsidiaries other than advances include:
- Insurance premium coverage for certain properties of the subsidiaries (see Note 1).
- Condonation of debt as a result of the RP amounting to nil, ₱1,499.78 million and ₱2,559.45 million in June 30, 2015, 2014 and 2013, respectively (see Note 1).
- Management contract and service agreement between the parent company and a subsidiary.

Compensation of key management personnel, including retirement and other benefits, amounted to ₱78.1 million, ₱71.8 million and ₱73.2 million in 2015, 2014 and 2013, respectively.

Retirement Fund

There were no other transactions made between the Group or its parent company and the retirement fund during the year.

19. **Subscription Payable**

Cyber Bay and Central Bay
On April 25, 1995, Central Bay, a wholly-owned subsidiary of Cyber Bay, entered into a Joint Venture Agreement with the Philippine Reclamation Authority (PRA; formerly Public Estates

Authority) for the complete and entire reclamation and horizontal development of a portion of the Manila-Cavite Coastal Road and Reclamation Project (the Project) consisting of three partially reclaimed and substantially eroded islands (the Three Islands) along Emilio Aguinaldo Boulevard in Parañaque and Las Piñas, Metro Manila, with a combined total area of 157.8 hectares, another area of 242.2 hectares contiguous to the Three Islands and, at Central Bay's option as approved by the PRA, an additional 350 hectares more or less to regularize the configuration of the reclaimed area.

On March 30, 1999, the PRA and Central Bay executed an Amended Joint Venture Agreement (AJVA) to enhance the Philippine Government's share and benefits from the Project which was approved by the Office of the President of the Philippines on May 28, 1999.

On July 9, 2002, the Supreme Court (SC) (in the case entitled "Francisco Chavez vs. Amari Coastal Bay and Reclamation Corp.") issued a ruling declaring the AJVA null and void.

Accordingly, PRA and Central Bay were permanently enjoined from implementing the AJVA. On July 26, 2002, Central Bay filed a Motion for Reconsideration (MR) of said SC decision. On May 6, 2003, the SC En Banc denied with finality Central Bay's MR. On May 15, 2003, Central Bay filed a Motion for Leave to Admit Second MR. In an En Banc Resolution of the SC dated July 8, 2003, the SC resolved to admit the Second MR of Central Bay.

On November 11, 2003, the SC rendered a 7-7 split decision on Central Bay's Second MR. Because of the new issues raised in the SC's latest resolution that were never tried or heard in the case, Central Bay was constrained to file on December 5, 2003 a Motion for Re-deliberation of the SC's latest resolution which motion was denied with finality by the SC. With the nullification of the AJVA, Central Bay has suspended all Project operations.

On August 10, 2007, in view of the failure by the PRA to comply with its obligations and representations under the AJVA, Cyber Bay and Central Bay have filed their claims for reimbursement of Project expenses in the amount of ₱10.2 billion with the PRA. Cyber Bay and Central Bay provided the PRA with the summary and details of their claims on September 5, 2007.

On July 15, 2008, Cyber Bay sent a follow-up letter to the PRA. The PRA, in its letter dated July 18, 2008, informed Cyber Bay that its claim is still being evaluated by the PRA.

As at June 30, 2015 and 2014 the Parent Company has unpaid subscription in Cyber Bay amounting to ₱481.68 million, which is presented as "Subscriptions Payable" in the consolidated statements of financial position. Cyber Bay under "AFS financial assets" amounted to ₱610.76 million and ₱930.03 million as at June 30, 2015 and 2014, respectively, net of allowance for impairment losses amounted to ₱527.48 million and ₱291.50 million as at June 30, 2015 and 2014, respectively (see Note 8).

23. Retirement Benefits Liability

The Group has a funded, noncontributory retirement plan covering all its regular employees. The plan provides for retirement, separation, disability and death benefits to its members. The normal retirement benefit is based on a percentage of the employees' final monthly salary for every year of credited service.

The latest independent actuarial valuation dated August 18, 2015 was determined using the projected unit credit method in accordance with PAS 19.

The following tables summarize the funded status and amounts recognized in the consolidated statements of financial position, and the components of the net retirement benefit costs recognized in the consolidated statements of income for the retirement plan:

27. Long-term Lease

On August 28, 1990, TPI, a subsidiary, through a deed of assignment, acquired all the rights, titles, interests and obligations of Gotesco Investment, Inc. on a contract of lease of the land owned by PNR for the Tutuban Terminal and where the TPI's mall is located. The contract provided for a payment of a guaranteed minimum annual rental plus a certain percentage of gross sales. The lease covers a period of twenty five (25) years until 2014 and is automatically renewable for another twenty five (25) years subject to compliance with the terms and conditions of the lease agreement.

On December 22, 2009, TPI renewed its lease contract with PNR for another twenty five (25) years beginning September 5, 2014, the end of the original lease agreement. Rent expense charged to operations amounted to ₱99.80 million, ₱90.82 million and ₱92.54 million in 2015, 2014 and 2013, respectively (see Note 20).

As at June 30, 2015 and 2014, the aggregate annual commitments on these existing lease agreements for the succeeding years are as follows:

	2015	2014
	(In Thousands)	
Less than one (1) year	**₱137,614**	₱121,991
More than one (1) year but not more than five (5) years	**689,402**	620,835
More than five (5) years	**3,056,840**	3,238,920
	₱3,883,856	₱3,981,746

Group as a Lessor
The Group has entered into commercial property leases on its buildings. These leases have remaining terms of one (1) year to less than five (5) years. Renewals are subject to the mutual consent of the lessor and the lessee.

Tenants are required to post security deposits, which shall be refunded, without interest, within sixty (60) days after the expiration of the lease period, deducting the amount of damages to the leased premises, if any. The discounted amount of noncurrent rental deposits amounted to ₱13.29 million and ₱9.12 million as at June 30, 2015 and 2014, respectively.

The table below shows the movement analysis of the carrying value of noncurrent security deposits as at June 30, 2015 and 2014:

	2015	2014

The excess of the principal amounts of the rent deposits over the carrying values is presented as "Deferred rent income" in the consolidated statements of financial position. Deferred rent income is amortized to rent revenue in the statements of comprehensive income over the lease term using the straight-line method.

The table below shows the movement analysis of the carrying value of deferred rent income as at June 30, 2015 and 2014:

	2015	2014
	(In Thousands)	
Beginning of year	**₱1,107**	₱684
Additions	**446**	627
Amortization	**(372)**	(204)
Balance at end of year	**₱1,181**	₱1,107

The amounts of deferred rent income were distributed as follows:

	2015	2014
Current portion	**₱389**	₱372
Noncurrent portion	**792**	735
	₱1,181	₱1,107

The current portion of the deferred rent income was included in the "Other payables" on "Accounts Payable and Accrued Expenses".

28. **Contingencies**

The Group is contingently liable for lawsuits or claims, and assessments, which are either pending decision by the courts or under negotiation. Management and its legal counsels believe that the eventual outcome of these lawsuits or claims will not have a material effect on the consolidated financial statements. It is possible, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to these proceedings.

29. **Events after the Reporting Period**

On August 14, 2015, the Group entered into an agreement with Ayala Land, Inc. (ALI) whereby ALI will subscribe to 2,500,000,000 common shares of stock of the Group or 51.36% equity interest in the Group (which will come from Group's increase in authorized capital stock) for a total consideration of ₱5.625 billion, subject to certain terms and conditions.

The Group, through its wholly-owned subsidiary, TPI, owns Tutuban Center in Manila City. With the entry of ALI, the Group will be able to benefit from the expertise and resources of ALI and optimize the development of its property assets, especially Tutuban Center. Tutuban Center, which sits on a 20-hectare property, will be the location of the North South Railway Project Transfer Station which will interconnect with the LRT 2 West Station.

In connection with the foregoing, on August 13, 2015, the BOD of the Group approved the amendment of its Articles of Incorporation, specifically: (1) Article Sixth - to increase the number of its directors from 7 to 9; and (2) Article Seventh - to increase its authorized capital stock from ₱2.4 billion to ₱7.5 billion.

On August 18, 2015, TPIHC, a subsidiary, sold its investment properties located at Sto Tomas, Batangas with an aggregate area of 191,414 square meters for a total consideration of | ₱270.58 million.

On August 18, 2015, OPDI, a subsidiary, entered into a Deed of Absolute Sale with Majestic Landscape Corporation covering the sale of several parcels of land situated in Brgy. Sto. Tomas in the province of Batangas with an aggregate area of 124,780 square meters for a total consideration amounting to ₱203.83 million.

On September 7, 2015, the Group sold its investment properties located in Mandaue City, Cebu for ₱432.6 million. The sale was approved by the BOD on September 4, 2015.

30. Financial Risk Management Objectives, Policies and Capital Management

The Group has various financial instruments such as cash and cash equivalents, receivables, amounts owed by to related parties, AFS financial assets, FVPL investments, deposits under other current assets and subscriptions payable. The main purpose of these financial instruments is to raise funds and maintain continuity of funding and financial flexibility for the Group. The Group has other financial liabilities such as accounts payable and accrued expenses and rental and other deposits, which arise directly from its operations.

The main risks from the use of financial instruments are credit risk, liquidity risk, foreign currency risk, equity price risk and interest rate risk. The Group's BOD reviews and approves policies for managing these risks as summarized below.

Credit Risk
The Group's credit risk originates from the potential loss arising from any failure by counterparties to fulfill their obligations, as and when they fall due.

The Group trades only with recognized, reputable and creditworthy third parties and/or transacts only with institutions and/or banks which have demonstrated financial soundness. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures.
The Group's gross maximum exposure to credit risk of its financial assets, which mainly comprise of cash and cash equivalents, excluding cash on hand, receivables, amounts owed by related parties and AFS financial assets arises from default of the counterparty which has a maximum exposure equal to the carrying amount of these instruments at reporting period.

Credit quality of neither past due nor impaired financial asset
The credit quality of financial assets is being managed by the Group by grouping its financial assets into two: (a) High grade financial assets are those that are current and collectible; (b) Standard grade financial assets need to be consistently followed up but are still collectible. The tables below show the credit quality by class of financial assets based on the Group's credit rating system:

Liquidity Risk

Liquidity risk arises when there is a shortage of funds and the Group as a consequence could not meet its maturing obligations.

In the management of liquidity, the Group monitors and maintains a level of cash deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

The tables below summarize the maturity profile of the Group's financial liabilities as at June 30, 2015 and 2014 based on contractual undiscounted payments:

2015

	On demand	Less than 3 months	3 to 6 months	6 to 12 months	Over 1 year	Total

Foreign Currency Risk

The Group's foreign currency risk results from the foreign exchange rate movements of the Philippine peso against the United States dollars (USD), European Monetary Union (EUR) and Great Britain Pound (GBP). The Group's foreign currency risk arises primarily from its cash in banks and trade payables.

The Group monitors and assesses cash flows from anticipated transactions and financing agreements denominated in USD, EUR and GBP.

The table below summarizes the Group's exposure to foreign currency risk as at June 30, 2015 and 2014. Included in the table are the Group's assets and liabilities at carrying amounts:

	2015		2014	
	Foreign Currency	**Peso Equivalent**	Foreign Currency	Peso Equivalent
		(In Thousands)		
Financial Asset:				
Cash in banks				
USD	**$22**	**₱1,009**	$18	₱786
Short-term investments				
USD	**35**	**1,578**	–	–
Financial Liability:

USD	**2**	**80**	2	87
EUR	**1**	**50**	1	60
GBP	**1**	**42**	1	75
Net financial asset	**$53**	**₱2,415**	$14	₱564

As at June 30 2015 and 2014, the exchange rates of other currencies to Philippine Peso are as follows:

	2015	2014
USD	**₱45.09**	₱43.65
EUR	**50.80**	59.76
GBP	**71.13**	74.59

The following table presents the impact on the Group’s income before income tax due to changes in the fair value of its financial assets and liabilities, brought about by a reasonably possible change in the foreign currencies/₱ exchange rate (holding all other variables constant) as at June 30, 2015 and 2014.

	Increase/ decrease in currency rate	Effect on income (loss) before income tax
	(In Thousands)	
2015		
USD	**+0.41%**	**₱22.79**
	-0.65%	**(36.13)**
EUR	**+2.34%**	**(2.30)**
	-1.30%	**1.28**
GBP	**+1.98%**	**(1.16)**
	-1.41%	**0.83**
2014		
USD	+0.69%	(₱11.04)
	-0.59%	9.44
EUR	+1.14%	(1.14)
	-0.82%	0.82
GBP	+1.70%	(1.70)
	-0.73%	0.73

There is no other impact on the Group’s equity other than those already affecting the consolidated statements of income.

Equity Price Risk
Equity price risk is the risk that the fair values of equities decrease as the result of change in the levels of equity indices and the value of individual stock. The equity price risk exposure arises from the Group’s investment in stocks. Equity investment of the Group is categorized as AFS financial assets.

The Group measures the sensitivity to its equity securities by using Philippine Stock Exchange index fluctuations and its effect to respective share prices.

The Group’s policy is to maintain the risk to an acceptable level. Movement of share price is monitored regularly to determine impact on its financial position.

The basic sensitivity analysis assumes that the stock's standard deviation on its historical yield for the past one year provides the basis for reasonably possible change in prices of the stock investment. The Group establishes the relative range of stock investment yields based on historical standard deviation for one year.

The following table demonstrates the sensitivity to reasonable possible change in equity prices, with all other variables held constant:

	Change in Equity price index	Effect on Equity
	(In Thousands)	
2015		
Upper Limit	**+11.59%**	**₱34,677**
Lower Limit	**(11.59%)**	**(34,677)**
2014		
Upper Limit	+17.62%	232,049
Lower Limit	(17.62%)	(232,049)
2013		
Upper Limit	+19.06%	251,022
Lower Limit	(19.06%)	(251,022)

The impact on the Group's equity already excludes the impact on transactions affecting the consolidated statements of income.

Capital Management

The primary objective of the Group's capital management is to optimize the use and earnings potential of the Group's resources and considering changes in economic conditions and the risk characteristics of the Group's activities.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes as at June 30, 2015 and 2014.

As at June 30, 2015 and 2014, the Group considers the following accounts as capital:

	2015	2014
	(In Thousands)	
Capital stock	**₱2,069,912**	₱2,066,357
Additional paid-in capital	**829,904**	829,904
	₱2,899,816	₱2,896,261

The Group is not subject to externally imposed capital requirements.

31. **Financial Instruments**

The following method and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate such values at June 30, 2015 and 2014 are set out below:

Cash and Cash Equivalents
The carrying amount of cash and cash equivalents approximates its fair values due to the short-term maturity of this financial instrument.

Receivables, Accounts Payable and Accrued Expenses and Amounts owed by Related Parties
The carrying amounts receivables, accounts payable and accrued expenses and amounts owed by related parties approximate their fair values due to their short-term nature.

Rental and Other Deposits
Current portion of rental and other deposits the carrying amounts approximates its fair value due to the short-term maturity of this financial instrument.

The fair values noncurrent security deposit recorded under 'Rental and other deposits" approximate its amortized cost which was based on the present value of the future cash flows.

AFS Financial Assets
AFS equity financial assets that are listed are based on their bid prices as at June 30, 2015 and 2014. AFS debt financial assets that are quoted are based on market prices. Unquoted debt and nonlisted AFS financial assets are based on latest available transaction price at the end of the reporting period.

Financial Assets at FVPL
Listed equity securities designated as financial assets at FVPL are based on their bid prices.

32. **Other Matters**

Certain accounts in the 2014 financial statements were reclassified to conform with the 2015 presentation.

(b) *Provide a brief summary of the corporate governance policy that the Board of Directors has adopted. Please emphasize the policy/ies relative to the treatment of all shareholders, respect for the rights of minority shareholders and of other stakeholders, disclosure duties, and board responsibilities.*

Section 3 of the Company's Revised Manual on Corporate Governance (revised as of July 2014) (the "Manual") provides:

> *"The Board of Directors and Management, employees and shareholders, believe that corporate governance is a necessary component of what constitutes sound strategic business management and will therefore*

undertake every effort necessary to create awareness within the organization as soon as possible.

All doubts or questions that may arise in the interpretation or application of this Manual shall be resolved in favor of promoting transparency, accountability and fairness to the stockholders and investors of the Corporation."

Pursuant to the foregoing, Section 4.2.1.7 of the Manual mandates the Board of Directors to, among others "formulate and implement policies and procedures that would ensure the integrity and transparency of related party transactions between and among the Corporation, subsidiaries, affiliates, major stockholders, officers and directors, including their spouses, children and dependent siblings and parents and of interlocking director relationships by members of the Board" and "establish and maintain an investor relations program that will keep the stockholders informed of important developments in the Corporation."

In line with the policy on transparency, Section 7.2 of the Manual states:

"The essence of corporate governance is transparency. The more transparent the internal workings of the Corporation are, the more difficult it will be for Management and dominant stockholders to mismanage the Corporation or misappropriate its assets.

All material information, i.e., anything that could potentially adversely affect the viability of the Corporation or interests of the stockholders shall be publicly disclosed. Such information shall include earnings results, acquisition or disposal of assets, board changes, related party transactions, shareholdings of directors and changes to ownership."

Further, Section 4.2.1.8 of the Manual mandates directors to immediately disclose an actual or potential conflict of interest and to refrain from the decision-making process thereon.

The Manual likewise reflects the Corporation's policy of recognizing and respecting the rights of its minority shareholders, as it provides for cumulative voting, power of inspection of corporate books and records, the right to periodic reports, dividends, and the right of appraisal. In addition, Section 8.1.8 of the Manual states:

"Although all stockholders should be treated equally or without discrimination, the Board should, as far as practicable, give minority stockholders the right to propose the holding of meetings and the items for discussion in the agenda that relate directly to the business of the Corporation. The Board shall determine which matters are proper for inclusion in the agenda for stockholders' meetings."

(c) How often does the Board review and approve the vision and mission?

The Board reviews and approves the Corporation's vision and mission as may be necessary in response to the changing business environment. The Corporation's vision and mission was last reviewed in 2010.

Daisy L. Parker	GIC	Corporate Secretary of GIC

(iv) Has the Company set a limit on the number of board seats in other companies (publicly listed, ordinary and companies with secondary license) that an individual director or CEO may hold simultaneously? In particular, is the limit of five board seats in other publicly-listed companies imposed and observed? If yes, briefly describe other guidelines.

Section 4.2.1.3 of the Manual provides:

> "The Board may consider the adoption of guidelines on the number of directorships that its members can hold. The optimum number of

directorships should take into consideration the capacity of a director to diligently and efficiently perform his duties and responsibilities."

Further, Section 4.2.2.1.3 of the Manual provides:

"The CEO and other executive directors may submit themselves to a low indicative limit on membership in other corporate boards. The same low limit may apply to independent, non-executive directors who serve as full time executives in other corporations. In any case, the capacity of directors to serve with diligence shall not be compromised."

The members of the Board have not exceeded the limit of five board seats in other publicly-listed companies.

(c) Shareholding in the Company

Complete the following table on the members of the Company's Board of Directors who directly and indirectly own shares in the Company.

3) *Explain how the Board of Directors plans for the succession of CEO/Managing Director/President and the top key management positions.*

The key officers are chosen based on their qualifications and competencies after due evaluation by the Board. The Human Resources Department (HRD) of the Corporation is tasked to develop a plan for succession of top key management positions.

4) *Other Executive, Non-Executive and Independent Directors*

Does the Company have a policy of ensuring diversity of experience and background of directors in the Board? Please explain.

The Corporation's Board of Directors is composed of a diverse mix of individuals – with accounting, legal or business background, consistent with its policy to ensure diversity of experience and background of directors.

Does it ensure that at least one non-executive director has an experience in the sector or industry the company belongs to? Please explain.

Yes. Section 4.2.1.5 of the Manual requires the Company's directors to have a practical understanding of the Corporation or relevant business experience. In addition Section 4.2.1.8 (v) of the Manual requires directors to have a working knowledge of the statutory and regulatory requirements affecting the Corporation, including its Articles of Incorporation and By-laws, the requirements of the Commission and other regulatory agencies, to be able to meaningfully contribute to the work of the Board.

The independent director, Mr. Victor C. Say is the Chairman of Onetree Holdings, Inc., a holding company with purpose similar to that of the Company. Mr. Say was formerly connected with a securities broker company and is familiar with requirements of listed companies.

The independent director, Atty. Ricardo J. Romulo, has extensive experience as director of holding companies as he is currently a director of a listed holding company, JG Summit Holdings, Inc.; he used to be a director of another listed company, SM Development Corporation, for many years.

Define and clarify the roles, accountabilities and deliverables of the Executive, Non-Executive and Independent Directors

	Executive	**Non-Executive**	**Independent Director**

Religious attendance in Board meetings and effective, objective, and independent participation in the deliberations therein, leading to sound, responsive and appropriate business strategies and policies.

Provide the Company's definition of "independence" and describe the Company's compliance to the definition.

Under Article III, Section 2 of the Corporation's By-laws:

> "An independent director shall hold no interests or relationships with the company that may hinder his independence from the company or Management which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director."

The current independent directors of the Corporation have no interests or relationships with the Corporation which may hinder their independence or interfere with their exercise of independent judgment. The different views and opinions expressed by the directors during the meetings are considered.

Does the Company have a term limit of five consecutive years for independent directors? If after two years, the Company wishes to bring back an independent director who had served for five years, does it limit the term for no more than additional four years? Please explain.

The Corporation follows the Securities and Exchange Commission (SEC) Memorandum Circular No. 9, Series of 2011 (which took effect on 2 January 2012) which set a term limit for independent directors – five years starting 2 January 2012, two years 'cooling off" period and re-election for another five years.

5) *Changes in the Board of Directors (Executive, Non-Executive, and Independent Directors)*

(a) Resignation/Death/Removal

Indicate any changes in the composition of the Board of Directors that happened during the period:

There were no changes in the composition of the Board of Directors in the fiscal year 2013-2014. All the directors were re-elected for FY 2014-2015.

(b) Selection/Appointment, Re-election, Disqualification, Removal, Reinstatement and Suspension

Describe the procedures for the selection/appointment, re-election, disqualification, removal, reinstatement and suspension of the members of the Board of Directors.

Provide details of the processes adopted (including the frequency of election) and the criteria employed in each procedure.

Procedure	Process Adopted	Criteria
a. Selection/Appointment		
(i) Executive Directors (ii) Non-Executive Directors	Candidates for directorships are pre-screened by the Nomination Committee. The directors are elected during the Annual Stockholders Meeting, and appointed to executive positions, if any, during the Organizational Meeting that immediately follows. 2) *Has the code of ethics or conduct been disseminated to all directors, senior management and employees?*

The Corporation's Code of Ethics and Employees' Policy Manual have been disseminated to the senior management and employees to formally adopt a code of ethics. The Corporation's Corporate Governance Manual (revised as of July 2014) has been disseminated to the Board of Directors and at least one (1) hard copy of the Manual has been distributed to each department.

3) *Discuss how the Company implements and monitors compliance with the code of ethics or conduct.*

The Corporation's HRD implements and monitors compliance by the senior management and employees with the Code of Ethics. The Corporation's Compliance Officer implements and monitors compliance by the Board of Directors with the Manual. The HRD is presently reviewing the Code of Ethics.

4) *Related Party Transactions*

(a) *Policies and Procedures*

Describe the Company's policies and procedures for the review, approval or ratification, monitoring and recording of related party transactions between and among the Company and its parent, joint ventures, subsidiaries, associates, affiliates, substantial stockholders, officers and directors, including their spouses, children and dependent siblings and parents and of interlocking director relationships of members of the Board.

Section 4.2.1.7 of the Manual mandates the Board of Directors to formulate and implement policies and procedures that would ensure the integrity and transparency of related party transactions between and among the Corporation, subsidiaries, affiliates, major stockholders, officers and directors, including their spouses, children and dependent siblings and parents and of interlocking director relationships by members of the Board. In addition, Section 7.2 of the Manual mandates the public disclosure of all material information, including related party transactions. On 2 December 2014, the Board of Directors approved the Related Party Transactions Policy of the Company.

Related Party Transactions	Policies and Procedures
(1) Parent Company	The Corporation has no parent company.
(2) Joint Ventures	The Corporation has no joint venture transactions at present.
(3) Subsidiaries	Transactions with subsidiaries are on arm's length basis similar to those with non-related parties. Transactions are reviewed and approved by the CEO.

(6) Officers including spouse/ children/siblings/parents	Transactions with officers are on arm's length basis similar to those with non-related parties. Officers disclose their business interests.
(7) Directors including spouse/ children/siblings/parents	Transactions with directors are on arm's length basis. Notice of related party transactions are to be given to the Board, which would review the same and decide whether to approve ratify or disapprove the same.

(8) Interlocking director relationship of Board of Directors	Transactions with interlocking directors are to be disclosed and are on an arm's length basis. Notice of related party transactions are to be given to the Board, which would review the same and decide whether to approve, ratify or disapprove the same. Pursuant to Section 33 of the Corporation Code of the Philippines, except in cases of fraud, and provided the contract is fair and reasonable under the circumstances, a contract between the Company and another corporation having interlocking directors shall not be invalidated on that ground alone, provided, that if the interest of the interlocking director in one corporation is substantial and his interest in the other corporation is merely minimal, he shall be subject to the provisions of Section 32 of the Corporation Code insofar as the latter corporation is concerned. (Stockholdings exceeding 20% of the outstanding capital stock shall be considered substantial for purposes of interlocking directors.) Section 32 of the Corporation Code provides that a contract of the Company with one or more of its directors is voidable, at the option of the Company unless all of the following conditions are present: a. The presence of such director in the Board meeting in which the contract was approved was not necessary to constitute a quorum for said meeting; b. The vote of such director was not necessary for the approval of the contract; c. The contract is fair and reasonable under the circumstances; d. In the case of an officer, the contract with the officer has been previously authorized by the Board. When any of the first 2 conditions is absent, in the case of a contract with a director, such contract may be ratified by the vote of the stockholders representing 2/3 of the outstanding capital stock in a meeting called for the purpose; provided that full disclosure of the adverse interest of the directors involved is made at such meeting; provided further, that the contract is fair and reasonable. (Secs. 2.1 and 2.2, Related Party Transactions Policy of the Company)

(b) Conflict of Interest

(i) Directors/Officers and 5% or more Shareholders

Group	Full Business Interest Disclosure Form

5) *Family, Commercial and Contractual Relations*

(a) *Indicate, if applicable, any relation of a family, commercial contractual or business nature that exists between the holders of significant equity (5% or more), to the extent that they are known to the Company.*

There is no known relation of a family, commercial or business nature that exists between the holders of significant equity.

(b) *Indicate, if applicable, any relation of a commercial, contractual or business nature that exists between the holders of significant equity (5% or more) and the Company.*

There is no known relation of a commercial, contractual or business nature that exists between the holders of significant equity and the Company.

(c) *Indicate any shareholder agreements that may impact on the control, ownership and strategic direction of the Company.*

There is no shareholder agreement at this time involving the Company's shares of stock.

6) *Alternative Dispute Resolution*

Describe the alternative dispute resolution system adopted by the Company for the last three (3) years in amicably settling conflicts or differences between the corporation and its stockholders, and the corporation and third parties, including regulatory authorities.

	Alternative Dispute Resolution (ADR) System
Corporation & Stockholders	There were no conflicts with stockholders which the Corporation had to settle within the last three (3) years.
Corporation & Third Parties	There were no conflicts or differences with third parties which had to be settled by the Corporation within the last three (3) years.
Corporation & Regulatory Authorities	There were no conflicts with regulatory agencies which the Corporation had to settle within the last three (3) years.

C. BOARD MEETINGS AND ATTENDANCE

1) *Are Board of Directors' meetings scheduled before or at the beginning of the year?*

The Board of Directors' meetings are scheduled at the beginning of the year and the schedule is sent by email to the directors. For CY 2014, the schedule of the Board meetings was as follows: 18 February 2014, 13 May 2014, 2 October 2014, 13 November 2014 and 2 December 2014.

For CY 2015, the schedule of Board meetings is as follows:

13 February 2015
6 May 2015
6 October 2015
28 October 2015
2 December 2015

2) *Attendance of Directors*

Board	Name	Date of Election	No. of Meetings Held During the FY	No. of Meetings Attended	%
Chairman	Felipe U. Yap	2 December 2014	12	11	92
Member	David C. Go	2 December 2014	12	12	100

3) *Do non-executive directors have a separate meeting during the year without the presence of any executive? If yes, how many times?*

The non-executive directors do not hold separate meetings at this time.

4) *Is the minimum quorum requirement for Board decisions set at two-thirds of board members? Please explain.*

The Company follows Section 25 of the Corporation Code, which sets the minimum quorum requirement at majority of the Board of Directors. The same requirement is provided in the Company's By-Laws.

5) *Access to Information*

(a) *How many days in advance are board papers for Board of Directors meetings provided to the Board?*

As much as practicable, documents and resources needed for Board meetings are given to the directors at least five (5) days prior to the date of the meeting.

(b) *Do Board members have independent access to Management and the Corporate Secretary?*

Yes. Section 4.2.6 of the Manual states in part:

"To enable the members of the Board to properly fulfill their duties and responsibilities, management should provide them with complete,

adequate and timely information about the matters to be taken in their meetings.

Reliance on information volunteered by Management would not be sufficient in all circumstances and further inquiries may have to be made by a member of the Board to enable him to properly perform his duties and responsibilities. ***Hence, the members of the Board shall be given independent access to Management and the Corporate Secretary****." (Emphasis supplied)*

(c) State the policy of the role of the Company Secretary. Does such role include assisting the Chairman in preparing the Board agenda, facilitating training of directors, keeping directors updated regarding any relevant statutory and regulatory changes, etc?

Under Section 4.2.3.4 of the Company's Manual, the Company Secretary has the following duties and responsibilities:

- Be responsible for the safekeeping and preservation of the integrity of the minutes of the meetings of the Board and its committees as well as official records of the Corporation;

- Be loyal to the mission, vision, and objectives of the Corporation;

- Work fairly and objectively with the Board, Management and stockholders;

- Have a working knowledge of the operations of the Corporation;

- As to agenda, get a complete schedule thereof at least for the current year and put the Board on notice before every meeting. Inform the members of the Board, in accordance with the by-laws, of the agenda of their meetings and ensure that members have before them accurate information that will enable them to arrive at intelligent decisions on matters that require their approval;
- Attend all Board meetings, except when justifiable causes, such as illness, death in the immediate family and serious accidents, prevent him from doing so, and maintain records of the meetings;

- Ensure that all Board procedures, rules and regulations are strictly followed by the members;

- If he is also the Compliance Officer, perform all the duties and responsibilities of the said officer as provided for in the Code, which include the filing with the Commission on the advisement letter on Directors' attendance within five (5) days from the end of the Company's fiscal year and updating of the pertinent portion of the ACGR, and reporting on the attendance of directors and key officers in corporate governance seminar each year; and

- Report/give an update on the attendance of the directors in Board meetings each year.

(d) Is the Company Secretary trained in legal, accountancy or company secretarial practices? Please explain should the answer be in the negative.

Section 4.2.3.3 of the Manual requires the Company Secretary to possess administrative and interpersonal skills, some legal skills (if not the general counsel), and some financial and accounting skills. The Company Secretary, Atty. Daisy L. Parker, is a lawyer by profession and has extensive administrative and legal experience in her more than twenty years as a corporate lawyer.

(e) Committee Procedures

Disclose whether there is a procedure that Directors can avail of to enable them to get information necessary to be able to prepare in advance for the meetings of different committees.

☑ Yes ☐ No

Committee	Details of Procedure
Executive	The Corporation has no Executive Committee at this time.
Audit (renamed as Audit and Risk Management Committee)	Materials and agenda are given prior to the meeting
Nomination	Materials and agenda are given prior to the meeting
Compensation and Remuneration	Materials and agenda are given prior to the meeting
Other (specify)	Not Applicable

The Company follows the policy on Directors' access to information found in Section 4.2.6 of the Manual, which states:

> *"To enable the members of the Board to properly fulfill their duties and responsibilities, management should provide them with complete, adequate and timely information about the matters to be taken in their meetings.*
>
> *Reliance on information volunteered by Management would not be sufficient in all circumstances and further inquiries may have to be made by a member of the Board to enable him to properly perform his duties and responsibilities. Hence, the members of the Board shall be given independent access to Management and the Corporate Secretary.*
> *The information may include the background or explanation on matters brought before the Board, disclosures, budgets, forecasts and internal financial documents.*
>
> *The members, either individually or as a Board, and in furtherance of their duties and responsibilities, shall have access to independent professional advice at the Corporation's expense.*

The Corporate Secretary attends meetings of the Board Committees and likewise provides the members thereof with all information and resources needed in preparation for the meetings.

6) *External Advice*

Indicate whether or not a procedure exists whereby directors can receive external advice and, if so, provide details.

There is no procedure at present whereby directors can receive external advice. However, directors are free to secure external advice, if they deem such as necessary.

7) *Change/s in existing policies*

Indicate, if applicable, any change/s introduced by the Board of Directors (during its most recent term) on existing policies that may have an effect on the business of the Company and the reason/s for the change.

The Board of Directors has not recently introduced any policy change.

G. INTERNAL AUDIT AND CONTROL

1) *Internal Control System*

Disclose the following information pertaining to the internal control system of the Company:

(a) *Explain how the internal control system is defined for the Company.*

Internal Control system is designed to provide reasonable assurance to the achievement of the objectives on the effectiveness and efficiency of operation, reliability of financial reporting, compliance with applicable laws and regulations, and safeguarding of the assets of the Company. These internal control systems are monitored and evaluated on a regular basis to ensure that they are functioning properly and effectively through a regular review of control environment, risk assessment, control activities, information and communication and monitoring.

Financial and Operational Control

The Company's disclosure controls and procedures include without limitation controls and procedures that are designed to ensure that information required to be disclosed in reports filed or submitted is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our Company's management, including the President and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Compliance

The Company's corporate compliance is managed by the Corporate Secretary and Internal Audit/Compliance Department. This unit endeavors to ensure that our policies, corporate decisions and business activities are done in compliance with prevailing law and regulations, both internal and external. The Company proactively implements compliance policies at the business unit level and the transactional level. Its compliance activities in 2013 included:

a. Supporting business activities with legal advice by delivering legal opinions on planned actions and issues in relation to their compliance with the applicable laws or regulations (legal advisory);
b. Conducting a risk and legal review of planned business initiatives, policies and planned cooperation (legal review of business & policy initiatives); and
c. Settlement of litigation and non-litigation cases (litigation).

Evaluation on the Effectiveness of Internal Audit
Management's Report on Internal Control over Financial Reporting

The Company's Management is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control over financial reporting is a process designed by, or under the supervision of, our CFO, and executed by its Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with IFRS as issued by the IASB and includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of our Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with IFRS, and that receipts and expenditures of our Company are being made only in accordance with authorizations of management and Directors of our Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our Company's assets that could have a material effect on the Consolidated Financial Statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

(b) *A statement that the directors have reviewed the effectiveness of the internal control system and whether they consider them effective and adequate.*

Under the supervision and with the participation of the Company's President, Chief Finance Officer and the Group Compliance, management conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures as of 30 June 2015. Based on this evaluation, Management has concluded that, as of 30 June 2015, the Company's disclosure controls and procedures were effective.

(c) *Period covered by the review.*
The review covers the period of 1 July 2014 to 30 June 2015.

(d) *How often internal controls are reviewed and the directors' criteria for assessing the effectiveness of the internal control system.*

The internal controls are reviewed annually and based on the reports of the Audit Committee on the audit areas covered during the year.

(e) *Where no review was conducted during the year, an explanation why not.*
N/A

2) *Internal Audit*

(a) *Role, Scope and Internal Audit Function*

Give a general description of the role and scope of internal audit work and other details of the internal audit function.

The Internal Audit Function sees to it that the Company's key organizational and procedural controls are effective, appropriate, and complied with, and shall be guided by the International Standards on Professional Practice of Internal Auditing.

Role	Scope	Indicate whether In-house or Outsource Internal Audit Function	Name of Chief Internal Auditor/Auditing Firm	Reporting Process

State the mechanism established by the Company to safeguard the independence of the auditors, financial analysts, investment banks and rating agencies (example, restrictions on trading in the Company's shares and imposition of internal approval procedures for these transactions, limitation on the non-audit services that an external auditor may provide to the company).

Auditors (Internal and External)	***Financial Analysts***	***Investment Banks***	***Rating Agencies***
The Internal and External Auditors report directly to the Audit and Risk Committee. Their reports are approved by the Audit Committee and the Board of Directors. In addition, the Manual provides that: (i)The external auditor should be rotated or changed every five (5) years or earlier, or the signing partner of the external auditing firm assigned to the Corporation, should be changed with the same frequency. (Section 4.2.7 (A) (v) of the Manual) (ii) The external auditor shall not, at the same time, provide internal audit services to the Corporation. Non-audit work may be given to the external auditor, provided it does not conflict with his duties as an independent auditor, or does not pose a threat to his independence. (Section 4.2.7 (B) of the Manual) (iii) If the external auditor believes that any statement made in an annual report, information statement or any report filed with the Commission or any regulatory body during the period of his engagement is incorrect or incomplete, he shall give his comments or views on the matter in the said reports. (Section 4.2.7 (B) of the Manual)	The Company does not perceive any need at this time to establish a mechanism to safeguard the independence of these entities.	The Company does not perceive any need at this time to establish a mechanism to safeguard the independence of these entities.	The Company does not perceive any need at this time to establish a mechanism to safeguard the independence of these entities.

(h) *State the officers (preferably the Chairman and the CEO) who will have to attest to the Company's full compliance with the SEC Code of Corporate Governance. Such confirmation must state that all directors, officers and employees of the Company have* *been given proper instruction on their respective duties as mandated by the Code and that internal mechanisms are in place to ensure that compliance.*

Section 7.1 of the Manual provides that the reports or disclosures required therein shall be prepared and submitted to the Commission by the responsible committee or officer through the Corporation's Compliance Officer. Hence, the Certification of the Company's compliance with the Manual is signed by the Corporate Secretary in her capacity as Compliance Officer, and by the President. However, pursuant to SEC Memorandum Circular No. 5, Series of 2013, the submission of the Certification of Compliance with the Manual was discontinued in 2013. In lieu thereof, the ACGR signed by the Chairman, President/CEO, Independent Directors and Compliance Officer shall be submitted by the Corporation starting June 2013 and every five (5) years thereafter. The ACGR shall be updated yearly.
